Andre Green:

André Green Revisited Gail S. Reed, Howard B. Levine, 2018-08-06 André Green was a leading voice in French psychoanalysis a brilliant thinker and an innovative contributor to our field His writings sit at the crossroads of contemporary psychoanalysis where the challenges posed and the opportunities presented by the work of Lacan Klein Winnicott and Bion meet the still generative insights of Freud many of which Green reminded us have yet to be fully developed or appreciated Green s expansion of Freud s theory of psychic representation and his own formulation of the work of the negative exemplify his idea of clinical thinking and herald what many believe is a new paradigm for psychoanalysis This volume of essays written by an international group of scholars in response to and appreciation of Green s contributions continues to explore the tension between presence and absence loss and remainder fort and da and the creative dialectical arc that exists between these pairs in psychic development and the analytic process It aims to expand the reach of our theory and practice to patients whose difficulties lie at the limits of analyzability beyond the spectrum of neurotic disturbances for which classical psychoanalysis was originally intended and to place the reader at the frontiers of contemporary clinical thinking and analytic technique

The Freudian Matrix of André Green Howard B. Levine, 2023-03-29 The Freudian Matrix of André Green presents seven papers never previously published in English that will allow readers to more closely follow and more fully understand the development of Green s unique psychoanalytic thinking The chapters in this book provide valuable insight into Green s response to a perceived crisis in psychoanalysis His thinking synthesizes the work of Lacan Winnicott Bion and other post Freudian authors with his own extensive clinical experience and results in a much needed extension of psychoanalytic theory and practice to non neurotic patients Green s focus on drives affect and the work of the negative and his introduction and exploration of the Dead Mother complex narcissism negative hallucination and the death instinct constitute a vital expansion of Freudian metapsychology and its application to the clinical setting The Freudian Matrix of André Green will be essential reading for psychoanalysts in practice and in training and for any reader looking to understand more about the enormity of his contribution

Andre Green at the Squiggle Foundation Jan Abram, 2018-05-08 Despite being one of the foremost psychoanalysts working today much of André Green s work has until recently been unavailable in English This work aims to rectify this by collecting together five lectures given to the Squiggle Foundation in London This accessible and clearly written book provides a unique introduction to Green s work and its relation to the work of D W Winnicott as promoted by the Squiggle Foundation itself The Squiggle Foundation has as its goal to study and cultivate the tradition of D W Winnicott and has achieved an international reputation in doing so Dr Green s lectures touch particularly on the links between his thought and that of Winnicott as can be seen from the lecture titles Experience and Thinking in Analytic Practice Objects s and Subject On Thirdness The Posthumous Winnicott On Human Nature and The Intuition of the Negative Playing and Reality
