Anger Management For Youth Stemming Aggression And Violence:

Anger Management for Youth Leona L. Eggert, 1994 *Anger Management for Youth* was written to assist grades 9-12 group leaders in teaching groups of adolescents to learn anger management techniques. The major sections of this book include an introduction to Anger Management for Youth for group leaders, Getting Started Anger Management for Youth modules and monitoring and check back tools. The introduction provides a brief history of Anger Management for Youth, key concepts about anger and anger management and description of the model. It also covers specific leader competencies for both the group counseling and skills training approaches that are integrated in Anger Management for Youth. The overall program goals, objectives and content of the modules are described and diagrammed. Goodreads [Juvenile Justice](#), 2001

Discipline With Dignity for Challenging Youth Richard Curwin, Allen Mendler, 2004-01-01. Create positive change in your most challenging students with the help of practical strategies found in this resource. Learn the five fundamental principles and seven goals that are the foundation of all effective discipline strategies. The authors share proven practices for classroom discipline, reveal reasons why students misbehave and offer 21 effective drug-free ways to help students with ADHD.

Youth Violence I. M. Rachia, 1999. This bibliography comprises a selection of Library of Congress catalog records for some 1,500 books, periodicals and websites related to youth violence. Anyone wanting such a bibliography could probably compile it from the Library of Congress web site and the deficiencies in conception and design of this product defy understanding. A brief preface sounds an alarm: no one should be surprised that youth violence lurks behind every school house door but sets forth no criteria for selection of citations, no indication of time frame, purpose or audience. Entries are arranged alphabetically by title within chapters on school violence, guns and youth gangs, campus violence, dating and violence and periodicals and Web sites. Unforgivably primitive alphabetic sorting puts all titles beginning with 'The' together the same with other articles and in addition those titles are indexed together. Though the title indicates the presence of abstracts, there are none except the summaries supplied by Library of Congress for juvenile titles, of which there are many. Cross referencing and indexing except by title are absent. The compiler's credentials, motivation and orientation are not cited. Furthermore, with better design the contents would have consumed half the number of pages and a few typeface variations would have eased scanning.
