**The Broadview Guide to Writing - Fifth Edition** Doug Babington, Don LePan, Maureen Okun, Victoria Anderson, 2010-02-12 The Broadview Guide to Writing is a concise yet uncommonly thorough text with a fresh approach to the craft of essay writing. The first part of the book discusses the style and structure of essay writing and includes a useful discussion of the intangibles involved in the writing process such as confidence, perseverance, and a willingness to deal with criticism constructively. The second part of the book provides thorough coverage of grammar and usage in a comprehensive reference guide ranging from the simplest mechanical issues such as subject-verb agreement to subtle distinctions between words that have similar meanings. A wide range of examples is included throughout the book. The fifth edition incorporates the 2008 changes to MLA Style guidelines for documentation and includes a number of other changes that make it far better suited than previous editions to the needs of American writers in the twenty-first century.

**The Broadview Book of Common Errors in English - Fifth Edition** Don LePan, 2003-04-17 The Broadview Book of Common Errors in English offers full coverage of such common mistakes as commas, splices, sentence fragments, words frequently confused, words frequently misspelled, mixed metaphors, and subject-verb agreement errors. In each case, the problem is clearly explained with examples illustrating both the nature of the trouble and how to put it right. Unlike many guides to grammar and usage, The Broadview Book refrains from dogmatism; it treats correctness in English not as an unchanging objective standard laden with moral overtones but rather as a code of convenience that is extraordinarily useful in helping humans to communicate effectively and even elegantly. It thus retains an openness to the inevitable process of change in the English language and recognizes that change does not imply debasement. The fifth edition has been updated throughout and includes new material on capitalization, on the connections between clear writing and clear arguments, on academic citation systems, on business writing, and on particular difficulties experienced by those whose first language is not English.
