Mastering Canon EOS Flash Photography, 2nd Edition Nk Guy, 2016-03-18 In this updated second edition of the authoritative bestselling Mastering Canon EOS Flash Photography photographer NK Guy brings the book fully up to date with coverage of all the newest Canon gear that has hit the market since the first edition published in 2010 This includes coverage of the radio enabled Canon Speedlite 600EX RT and Canon Speedlite Transmitter ST E3 RT as well as the other Speedlites that have released since the first edition's publication Canon Speedlite 90EX 270EX II 320EX and 600EX And this is the first book to cover Canon's new affordable master unit the Speedlite 430EX III RT flash Digital cameras and flash technology have truly revolutionized photography in the 21st century Originally seen simply as a practical way to illuminate dark scenes with portable light flash today is used for a host of creative and nuanced applications including

supplementing daylight designing complex scenes lit by multiple light sources and simply creating beautiful controllable light for portraiture With LCD screens on DSLRs the ability to get instant feedback on lighting setups is a great help in advancing one's lighting capabilities and encouraging experimentation However flash photography can still be a difficult artistic and technical challenge It's simple to get that harsh deer in the headlights look from built-in automatic flash but it is a far cry from beautiful light Creating natural looking images is not nearly as straightforward Mastering the properties of light and the ability to manipulate craft and direct it is a lifelong endeavor Those diving into Speedlights need some help Manuals are terse and the terminology is confusing this is where Mastering Canon EOS Flash Photography comes in This is the complete book on the subject guiding you through Canon's Speedlite system from off-camera portable flash to professional studio lighting It covers the fundamentals of flash metering technology discusses key lighting concepts and documents a wide range of Canon and third-party equipment Universal flash accessories studio gear and radio triggers are all thoroughly covered The book is lavishly illustrated with diagrams that demonstrate important functions and lighting arrangements and inspiring photos that show sophisticated flash techniques Though tailored for users of Canon EOS cameras owners of other camera systems will find much valuable information as well So whether you're just getting started with flash or you've picked up the bug for off-camera lighting from such popular websites as Strobist.com or you're making the leap into advanced studio work Mastering Canon EOS Flash Photography is your in-depth resource Includes a foreword by David Hobby noted

photojournalist and founder of Strobist.com **A Short Course in Photography** Barbara London, Jim Stone, 2018-02-06 For courses in the fundamentals of digital photography Explores basic techniques in digital photography Modeled after the widely used A Short Course in Photography Film and Darkroom the 4th Edition of A Short Course in Photography Digital presents the basic techniques of photography in its contemporary digital form This brief volume emphasizes the most up-to-date learning techniques allowing readers to keep up with modern technology and explore artistic choices via in-depth discussion of photographic techniques In addition to covering the basics of digital photography this title also covers the impact of computers and software on the art of photography The 4th Edition includes new contemporary photographs by great artists information on the latest digital camera technology and software and integration of workflow applications

Photography Barbara London, John Upton, 1993 Text covering material for basic photography courses and many advanced techniques with sample photos that illustrate techniques discussed
