A Temple of Texts William H. Gass, 2010-02-10 From one of the most admired essayists and novelists at work today a new collection of essays his first since *Tests of Time* winner of the National Book Critics Circle Award for Criticism These twenty five essays speak to the nature and value of writing and to the books that result from a deep commitment to the word Here is Gass on Rilke and Gertrude Stein on friends such as Stanley Elkin Robert Coover and William Gaddis and on a company of healthy dissidents among them Rabelais Elias Canetti John Hawkes and Gabriel Garcia Marquez In the title essay Gass offers an annotated list of the fifty books that have most influenced his thinking and his work and writes about his first reaction to reading each Among the books Ludwig Wittgenstein's *Tractatus Logico Philosophicus* A lightning bolt Gass writes Philosophy was not dead after all Philosophical ambitions were not extinguished Philosophical beauty had not fled prose Ben Jonson's *The Alchemist* A man after my own heart He is capable of the simplest lyrical stroke as bold and direct as a line by Matisse but he can be complex in a manner that could cast Nabokov in the shade Shakespeare may have been smarter but he did not know as much Gustave Flaubert's letters Here I learned and learned and learned And after reading Malory's *Le Morte d'Arthur* Gass writes I began to eat books like an alien worm In the concluding essay *Evil* Gass enlarges upon the themes of artistic quality and cultural values that are central to the books he has considered many of which seek to reveal the worst in people while admiring what they do best As Gass writes The true alchemists do not change lead into gold they change the world into words *A Temple of Texts* is Gass at his most alchemical

The Plight of Feeling Julia A. Stern, 2008-04-15 American novels written in the wake of the Revolution overflow with self conscious theatricality and impassioned excess In *The Plight of Feeling* Julia A Stern shows that these sentimental melodramatic and gothic works can be read as an emotional history of the early republic reflecting the hate anger fear and grief that tormented the Federalist era Stern argues that these novels gave voice to a collective mourning over the violence of the Revolution and the foreclosure of liberty for the nation s noncitizens women the poor Native and African Americans Properly placed in the context of late eighteenth century thought the republican novel emerges as essentially political offering its audience gothic and feminized counternarratives to read against the dominant male authored accounts of national legitimation Drawing upon insights from cultural history and gender studies as well as psychoanalytic narrative and genre theory Stern convincingly exposes the foundation of the republic as an unquiet crypt housing those invisible Americans who contributed to its construction
