The only possible answer—our artillery must have done a real long job up by that downed continued to move, unimpeded by enemy fire.

Nothing you was holding them back, they were passing on the big prize—their goal was not about water much. Excitement increased, and so did the speed of the tanks. We were now about halfway to the bridge. AND THEN SOMETHING HAPPENED . . . but then came shock and confusion with the realization that the long bridge loaded and jammed with Germans had been blown up by German!

Know Me Nancy Curci, 2020-04-20 Throughout the dozens of interviews in this book with veterans of four wars veterans who have experienced combat there seems to be a consistent thread that goes through the veterans words about wars politics weapons biases and human life The words go War does not end war it begets war Stronger weapons may hinder but do not stop war Individuals in spite of their gender color or culture have become more equal in the military due to their courage bravery and proof of equal abilities Humans will go forth to protect their beliefs their homes and their country when they believe it is a justified cause and are willing to risk life and limb There are three things that stayed the same throughout all the interviews One Wars are usually concocted by politics greed money and power and that these are the root of most wars Two The young even before their brain is totally developed are the ones who do the dying Three Although the military was ready to desegregate around 1947 the country still continued with the Jim Crow laws and the Green Book Travel Guide until sometime in the sixties My question to you is our young joined or were drafted and they went to war stayed the course did the job paid the price and paid it forward Could we at least pay it back Could we at least know who they were and are These are the people we are speaking about when we say boots on the ground

Reinventing the Warrior Matthias André Voigt, 2024-09-01 On February 27 1973 a group of roughly 300 armed Indigenous men women and children seized the tiny hamlet of Wounded Knee South Dakota at gunpoint took hostages barricaded themselves in the hilltop church and raised an upside down American flag Taking place at the site of the infamous massacre in 1890 the highly symbolic confrontation spearheaded by the American Indian Movement AIM ultimately evolved into a prolonged seventy one day armed standoff between law enforcement officers and modern day Indigenous warriors Among these warriors were Vietnam War veterans armed with Vietnam era equipment and weaponry By organizing in defense of the newly proclaimed Independent Oglala Nation the AIM activists at Wounded Knee linked their nationalist quest for sovereignty and self determination with a warrior masculinity they constructed from a mix of Indigenous cultures and contemporary cultural elements including the Black civil rights movement the counterculture of the 1960s and early 1970s and the antiwar movement As Matthias Andr Voigt shows the takeover of Wounded Knee was only one moment among many in the complex interplay between protest activism gender race and identity within AIM While AIM is widely recognized for its militancy and nationalism *Reinventing the Warrior* is the first major study to examine the gendered transformation of Indigenous men within the Red Power movement and the United States more generally AIM activists came to regard themselves like their ancestors before them as warriors fighting for their people their lands and their rights They sought to remasculinize their Indigenous identity in order to confront hegemonic masculinities and by implication colonialism itself By becoming more manly Indigenous men challenged the disempowering nature of white supremacy Voigt traces the story of the reinvention of Indigenous warriorhood from 1968 to the takeover of Wounded Knee in 1973 and beyond His trailblazing work explores why

and how Indigenous men refashioned themselves as modern day warriors in their anticolonial nation building endeavor thereby remaking both self and society **Readers Comp to Military History Pa** ,2001 THE READER S COMPANION TO MILITARY HISTORY is the first major reference work on military history to represent a global perspective More than 150 distinguished military historians biographers and journalists contributed nearly 600 articles to this remarkable chronicle of warfare that combines compelling historical narrative with the latest in contemporary scholarship Here is essential information on major events and battles commanders weaponry and technology and strategy and tactics Other topics include courage discipline the effects of weather on warfare military justice the role of propaganda the evolution of uniforms psychological warfare and morale Filled with surprising anecdotes and little known facts THE READER S COMPANION TO MILITARY HISTORY **Folk Art** ,2001
