The Culture of Homelessness Megan Ravenhill, 2016-03-16 Despite an extensive literature on homelessness there is surprisingly little work that investigates the roots of homelessness by tracking homeless people over time In this fascinating and much needed ethnographic study Megan Ravenhill presents the results of ten years research on the streets and in the hostels and day centres of the UK incorporating intensive interviews with 150 homeless and formerly homeless people as well as policy makers and professionals working with homeless people Ravenhill discusses the biographical structural and behavioural factors that lead to homelessness Amongst the important and unique features of the study are the use of life route maps showing the circumstances and decisions that lead to homelessness a systematic study of the timescales involved and a survey of people's exit routes from homelessness Ravenhill also identifies factors that predict those most vulnerable to homelessness and factors that prevent or considerably delay the onset of homelessness

For Your Sake He Became Poor
Georges Massinelli, 2021-04-19 The Pauline collection for the poor in Jerusalem is the most famous example of financial support for geographically distant groups in early

Christianity Recent assessments of the Pauline collection have focused on patronage to explain the social relations between Jerusalem and the Pauline groups and the strategies adopted by Paul Through a comparison with the Greco Roman world and a close reading of the texts this study challenges the recent approach and proposes that other factors shaped Paul s stance Paul was interested in reassuring the Corinthians about the financial outcome of the collection and dispelling doubts that he might take advantage of them The collection was an action modeled on divine generosity and an exchange within a reciprocal relationship between Christian groups This study also surveys intergroup support between Christian groups in the first three centuries CE This practice involved churches from most of the Mediterranean Basin and was known even outside of Christian circles Transfers of money were organized according to a consistent pattern modeled on local charitable practices The Pauline collection had similar characteristics and can be seen as part of this widespread economic practice Youth in Contemporary Europe Jeremy Leaman,Martha Wörsching,2010-06-10 This book examines the everyday living conditions experienced and also shaped by young people in Europe Contributors reflect on the current context of economic social and political change affecting youth in the critical transition from dependence to independence The volume provides the reader with a multi dimensional and interdisciplinary view of youth cultures drawn from a variety of recent research throughout the continent
