Being Introduction Devon Cornwall:

A Book of the West I S. Baring-Gould, 2016-08-11 In this Book of the West I have not sought to say all that might be said relative to Devon and Cornwall nor have I attempted to make of it a guide book I have rather endeavoured to convey to the visitor to our western peninsula a general idea of what is interesting and what ought to attract his attention The book is not intended to supersede guide books but to prepare the mind to use these latter with discretion In dealing with the history of the counties and of the towns it would have swelled the volumes unduly to have gone systematically through their story from the beginning to the present it would moreover have made the book heavy reading as well as heavy to carry I have chosen therefore to pick out some incident or some biography connected with the several towns described and have limited myself thereto My object then must not be misunderstood and my book harshly judged accordingly There are vi ten thousand omissions but I venture to think a good many things have been admitted which will not be found in guide books but which it is well for the visitor to know if he has a quick intelligence and eyes open to observe In the Cornish volume I have given rather fully the stories of the saints who have impressed their names indelibly on the land It has seemed to me absurd to travel in Cornwall and have these names in the mouth and let them remain nuda nomina They have a history and that is intimately associated with the beginnings of that of Cornwall But their history has not been studied and in books concerning Cornwall most of the statements about them are wholly false I have not entered into any critical discussion concerning moot points I have left that for my Catalogue of the Cornish Saints that is being issued in the Journal of the Royal Institution of Cornwall There are places that might have been described more fully others that have been passed over without notice
