Assessment Accommodations for Classroom Teachers of Culturally and Linguistically Diverse Students Socorro Guadalupe Herrera, 2013 *Assessment Accommodations for Classroom Teachers of Culturally and Linguistically Diverse Students* Socorro G. Herrera, Kevin G. Murry, Robin M. Cabral, 2012-09-26 This is the eBook of the printed book and may not include any media website access codes or print supplements that may come packaged with the bound book A much needed resource for helping teachers assess the increasing number of diverse students and English learners in today's K-12 classrooms *Assessment Accommodations for Classroom Teachers of Culturally and Linguistically Diverse Students* details effective classroom assessment practices and organizes recommended strategies around the four critical dimensions of the CLD student biography: the sociocultural, linguistic, academic, and cognitive dimensions. Written from the perspective of a differential lens on assessment practices for CLD students, the book focuses on the student as the driving force behind its narrative and organization and examines the Who, Where, What, When, and How of using appropriate assessment practices with CLD students. *Classroom Testing and Assessment for ALL Students* Spencer J. Salend, 2009-10 Use teacher-made tests, appropriate testing accommodations, technology-based testing, and classroom-based assessments to give students with diverse needs the opportunity to achieve. *Equitable and Inclusive Teaching for Diverse Learners With Disabilities* Socorro G. Herrera, Diane Rodriguez, Robin M. Cabral, Melissa A. Holmes, 2023 The need for teachers who have both the knowledge and the skills to teach students in special education, especially students who are emergent bilinguals, is more critical today than ever before. Assumptions about the assurances outlined in the Individuals with Disabilities Education Act (IDEA) have led to practices that have limited the scope of opportunities for culturally and linguistically diverse CLD students with disabilities. This book examines the intent of special education policy, challenges existing systems, and explores the promise of using biography-driven instruction to transform students' learning and enhance their personal growth and community life. With a focus on inclusive practices for working with CLD students with disabilities and their families, the book examines decision-making processes for placement, access, instruction, assessment, and evaluation. The authors show how inclusionary practices create contexts and conditions for teachers to foster their students' academic abilities through authentic care and an ecology of care. **Book Features:** Elucidates the challenges faced by educators and support personnel as they navigate and prioritize the needs of CLD students with disabilities in inclusive classrooms. Discloses the outdated, politically driven, inequitable, and inconsequential educational opportunities often afforded to CLD students receiving special services. Provides a framework for creating learning opportunities grounded in the six principles of IDEA and the personal and academic biography of learners and their families. Supports teachers and other staff to maximize four interrelated facets of the CLD student biography: sociocultural, linguistic, cognitive, and academic. Explores the multiple meanings of inclusion and academic engagement at the intersection of IDEA and biography-driven instruction. **Handbook of Research on Assessment**
