Blessed Are The Consumers Climate Change And The Practice Of Restraint:

Blessed Are the Consumers Sallie McFague, 2013-01-01 For decades Sallie McFague has lent her voice and her theological imagination to addressing and advocating for the most important issues of our time In doing so she has influenced an entire generation and empowered countless people in their efforts to put religion in the service of meeting human needs in difficult times In this timely book McFague recalls her readers to the practices of restraint In a world bent on consumption it is imperative that people of religious faith realize the significant role they play in advocating for the earth and a more humane life for all The root of restraint she argues rests in the ancient Christian notion of Kenosis or self emptying By introducing Kenosis through the life stories of John Woolman Simone Weil and Dorothy Day McFague brings a powerful theological concept to bear in a winsome and readable way Christian Theology After Christendom Patricia G.

Kirkpatrick, Pamela R. McCarroll, 2020-11-24 Christian Theology after Christendom Engaging the Thought of Douglas John Hall brings together contemporary thinkers to engage and build upon Douglas John Hall's work and to take up his challenge to reclaim a contextual and decolonizing theology of the cross as a means to speak to the realities of life and faith today With a focus on contemporary issues this edited collection critically analyzes and deconstructs the centuries old colonial triumphalism of Christian theology and the church in the West This book seeks to frame present day crises in ways that honor a deeply rooted theologia crucis that does not colonize the other It explores constructive decolonizing possibilities for Christian theology at the end of Christendom T&T Clark Handbook of Christian Theology and Climate Change Hilda P.

Koster, Ernst M. Conradie, 2019-12-12 The T these essays are critically engaged by respondents situated in other geographic regions minority communities non Christian traditions or non theological disciplines Structured in seven main parts the handbook explores 1 the need for collaboration with disciplines outside of Christian theology to address climate change 2 the need to find common moral ground for such collaboration 3 the difficulties posed by collaborating with other Christian traditions from within 4 the questions that emerge from such collaboration for understanding the story of God's work and 5 God's identity and character 6 the implications of such collaboration for ecclesial praxis and 7 concluding reflections examining whether this volume does justice to issues of race gender class other animals religious diversity geographical divides and carbon mitigation This rich ecumenical cross cultural conversation provides a comprehensive and in depth engagement with the theological and moral challenges raised by anthropogenic climate change **Kenosis and Its Power**

Norihito Nakamura, 2025-10-22 What is kenosis It is a Christian theological concept from Philippians 2 that refers to the self emptying of Jesus Jesus while being fully divine voluntarily emptied himself and renounced certain divine privileges and powers This concept has sparked extensive theological discussions over its long history but its meaning underwent a transformation in the twentieth century In an era of modernity known for nihilism where secularization and the death of God are taken for granted kenosis prompts people to consider a new form of religion This volume of eight essays aims to open up

its philosophical and historical significance It is divided into two parts The first part consists of analyses of kenosis from the perspectives of political theology and contemporary philosophy e g McFaigue Kierkegaard Bonhoeffer Jean Luc Nancy Levinas Jean Luc Marion etc The second part focuses on the Japanese philosophers of the Kyoto School and consists of studies on the interreligious potential of kenosis e g Nishida Kitamori Nishitani Tanabe Abe Nicholas of Cusa Moltmann Vattimo etc

Climate Change and the Symbol Deficit in the Christian Tradition Jan-Olav Henriksen, 2022-02-24 Exploring how the climate crisis discloses the symbol deficit in the Christian tradition this book argues that Christianity is rich in symbols that identify and address the failures of humans and the obstacles that prevent humans from doing well while positive symbols that can engage people in constructive action seem underdeveloped Henriksen examines the potential of the Christian tradition to develop symbols that can engage peoples in committed and sustained action to prevent further crisis To do so he argues that we need symbols that engage both intellectually and emotionally and which enhance our perception of belonging in relationships with other humans be it both in the present and in the future According to Henriksen the deficit can only be obliterated if we can develop symbols that have some root or resonance in the Christian tradition provide concrete and specified guidance of agency engage people both emotionally and intellectually and finally open up to visions for a moral agency that provide positive motivations for caring about environmental conditions as a whole

T&T Clark Handbook of the Doctrine of Creation, 2024-03-07 The T how the doctrine of creation informs and is informed by various dogmatic commitments and how the doctrine of creation relates to a range of human concerns and activities The Handbook represents a celebration of fascination with bewilderment at lament about and hope for all that is and serves as a scholarly innovative and constructive reference for those interested in attending to what Christian belief has to contribute to thinking about and living with the mysterious existence named creation

Before Theological Study Harry O. Maier, Ashley John Moyse, Richard R. Topping, 2021-09-16 Before Theological Study will orient students to the aptitudes knowledge spirituality imagination and dispositions that are appropriate to thoughtful engaged and generous theological study The book has the character of a modern theological enchiridion handbook for engagement with the disciplines that are a part of preparation for ministry It is characterized by the vision of the Vancouver School of Theology to prepare students for thoughtful engaged and generous Christian ministry practiced in a way that is alert to the multi religious contexts and the colonial legacy of mainline Christianity The essays in this handbook are written in a variety of registers yet each remains accessible to the newcomer or potential newcomer to theological education The book is not rooted in a unified orthodoxy but expresses the bandwidth of contemporary theological viewpoints

Jesus, Revolutionary of the Poor Mark Bredin, 2017-11-06 Is Jesus relevant to the sufferings of the helpless the voiceless those dying of hunger those traumatized by violence people with learning difficulties In Matthew we see Jesus to be a man on the frontline battling against the forces that stop the non poor from living generously and the poorest of the poor living abundantly the way God intended This is Jesus as one who in his

very being is an expression of God's wrath against human beings who live their lives as if creation is a battle zone where only the selfish and powerful flourish. Matthew's Jesus is outraged at the lethargy and apathy that permits non-poor people to live according to practices that lead so many to be excluded from the fruits of God's creation. But the Jesus found in this gospel is also one who teaches that God has created a world that is good to see; it is abundant as long as people live according to the dynamic order God has inwardly established in creation: one rooted in generosity, hospitality, love, self-sacrifice, righteousness, justice, Torah, and mercy.

The Greening of Religion Jonathan Leader Editor, 2018-02-27. Some have said the America is the most religious industrialized country in the world. The power of politics driven at least in part by religious concerns was demonstrated dramatically in the November election. But are people at this grassroots level, the ones most likely to suffer the consequences of political deafness regarding climate change, do they really understand the truth of the approaching environmental storm? If not, perhaps they will best learn new ways of thinking and living from those whom they hold in highest regard: their religious leaders, thinkers, teachers, writers, and communicators. With The Greening of Religion we hope to have added to a life-saving public conversation, perhaps even started some conversations. And we hope those conversations will lead to actions which can shelter us from the inevitable and perhaps turn us from calamity even here at the last minute.

Theological Anthropology in the Anthropocene Jan-Olav Henriksen, 2022-12-14. The Anthropocene presents theology and especially theological anthropology with unprecedented challenges. There are no immediately available resources in the theological tradition that reflect directly on such experiences. Accordingly, the situation calls for contextually based theological reflection of what it means to be human under such circumstances. This book discusses the main elements in theological anthropology in light of the fundamental points: a) that theological anthropology needs to be articulated with reference to and informed by the concrete historical circumstances in which humanity presently finds itself and b) that the notion of the Anthropocene can be used as a heuristic tool to describe important traits and conditions that call for a response by humanity and which entail the need for a renewal of what a Christian self-understanding means. Jan-Olav Henriksen explores what such a response entails from the point of view of contemporary theological anthropology and discusses selected topics that can contribute to a contextually based position.
