Breathing Under Water And Other East European Essays:

Breathing Under Water and Other East European Essays Stanisław Barańczak, 1990 In essays on issues from censorship to underground poetry Baranczak explores the role that culture and particularly literature has played in keeping the spirit of intellectual independence alive in Eastern and Central Europe [Encyclopedia of the Essay](#) Tracy Chevalier, 2012-10-12 This groundbreaking new source of international scope defines the essay as nonfictional prose texts of between one and 50 pages in length The more than 500 entries by 275 contributors include entries on nationalities various categories of essays such as generic such as sermons aphorisms individual major works notable writers and periodicals that created a market for essays and particularly famous or significant essays The preface details the historical development of the essay and the alphabetically arranged entries usually include biographical sketch nationality era selected writings list additional readings and anthologies [Performative Democracy](#) Elzbieta Matynia, 2015-12-03 fresh appreciation of the events of 1989 as we approach their 20th anniversary in 2009 Performative Democracy explores a potential in political life that easily escapes theorists the indigenously inspired enacting of democracy by citizens Written by one who experienced an emerging public sphere within Communist Poland the book seeks to identify the conditions for performativity performing politics in public life It examines a broad spectrum of cultural social and political initiatives that facilitated the non violent transformation of an autocratic environment into a democratic one Examples of performativity range from experimental student theater through the engaged political thinking of dissident Adam Michnik the alternative culture and the Solidarity movement to the drama of the Round Table Talks and their striking parallels in South Africa and finally the post 1989 efforts of feminist groups and women artists to defend the recently won right of free public discourse The book argues that performative democracy with its improvisational mode and imaginative solutions deserves a legitimate place in our broader reflections on democracy Matynia describes how two apparent miracles of recent history that communism in Poland was brought down without violence and that apartheid in South Africa was ended without a bloodbath were the results of hard work and a new approach to change that she calls performative democracy Matynia reveals amazing parallels between the drama of Poland's Round Table Talks in 1989 and the Truth Commissions in South Africa in 1994 Matynia describes how experimental student theater groups though subsidized by a totalitarian regime afraid of any authentic public life created little pockets of public space for free and meaningful expression that were augmented by uncensored underground publishing and further expanded by the Solidarity movement into a democratic society within the totalitarian state Matynia describes in a personal way how in the 1970s student theater groups planted the seeds of an authentic public sphere how underground publishers nurtured freedom of expression and social criticism and how after democratic elections women artists in the 1990s fought to sustain the newly won right to free public discourse Matynia traces in vivid human terms the democratic aspirations and practices that led to democratic change in Poland but went largely unnoticed by western media

and policymakers

Transformative Fictions Daniel Just, 2022-07-27 Transformative Fictions World Literature and Personal Change engages with current debates in world literature over the past twenty years addressing the nature of literary influence in centers and peripheries the formation of transnational literary and pedagogical canons and the role of translation and regionalism in how we relate to texts from around the globe The author Daniel Just argues for a supranational but sub global perspective of regions that emphasizes practical reasons for reading and focuses on the potential of literary texts to stimulate personal transformation in readers One of the recurring dilemmas in these debates is the issue of delimitation of world literature The trouble with the world as a frame of reference is that no single researcher is bound to have the in depth knowledge and linguistic skills to discuss works from all countries In response this book revives literary theory and recasts it for the purposes of world literature by making a case for the continuing relevance of literature in the age of new media With the examples of fictional and nonfictional writings by Milan Kundera Witold Gombrowicz and Bohumil Hrabal Just shows that regional literatures offer differing methods of activating readers and thereby prompting personal change This book would be of general interest to anyone who wants to explore personal change through literature but is particularly indispensable for literary professionals researchers and postgraduate and graduate students

Letters and Cultural Transformations in the United States, 1760-1860 Sharon M. Harris, 2016-05-06 This volume illustrates the significance of epistolarity as a literary phenomenon intricately interwoven with eighteenth and nineteenth century cultural developments Rejecting the common categorization of letters as primarily private documents this collection of essays demonstrates the genre's persistent public engagements with changing cultural dynamics of the revolutionary early republican and antebellum eras Sections of the collection treat letters implication in

transatlanticism authorship and reform movements as well as the politics and practices of editing letters The wide range of authors considered include Mercy Otis Warren Charles Brockden Brown members of the Emerson and Peabody families Margaret Fuller Elizabeth Stoddard Catherine Brown John Brown and Harriet Jacobs The volume is particularly relevant for researchers in U S literature and history as well as women s writing and periodical studies This dynamic collection offers scholars an exemplary template of new approaches for exploring an understudied yet critically important literary genre

Ethics and Aesthetics of Translation Harriet Hulme, 2018-11-19 Ethics and Aesthetics of Translation engages with translation in both theory and practice as part of an interrogation of ethical as well as political thought in the work of three bilingual European authors Bernardo Atxaga Milan Kundera and Jorge Sempr n In approaching the work of these authors the book draws upon the approaches to translation offered by Benjamin Derrida Ric ur and Deleuze to highlight a broad set of ethical questions focused upon the limitations of the monolingual and the democratic possibilities of linguistic plurality upon our innate desire to translate difference into similarity and upon the ways in which translation responds to the challenges of individual and collective remembrance Each chapter explores these interlingual but also intercultural interrelational and interdisciplinary issues mapping a journey of translation that begins in the impact of translation upon the work of each author continues into moments of linguistic translation untranslatability and mistranslation within their texts and ultimately becomes an exploration of social political and affective untranslatability In these journeys the creative and critical potential of translation emerges as a potent often violent but always illuminating vision of the possibilities of differentiation and connection generation and memory in temporal linguistic cultural and political terms
