

BCRS BRIEF COGNITIVE RATING SCALE

Adapted from Reisberg, B. and Ferris, S.H., Brief Cognitive Rating Scale (BCRS). *Psychopharmacology Bulletin*, 1988, 24:629-636.

Hi, my name is JCC. Tell me your (full) name. I would like to ask you some questions about your memory and thinking skills. Just answer the best that you can, if you can't remember, or don't know, just say "I don't know."

SCORE	ADULT-CONCENTRATION. Taking into consideration education level, ask: "How far did you go in school?" "How are you at subtraction?" "What is 7 from 100? 7 from 50, 7 from 80?" (If you can't do ask 49, if can't do ask 24)
1	No objective or subjective evidence of a deficit in concentration.
2	Subjective decrement in concentration ability.
3	Minor objective signs of poor concentration (e.g., subtraction of serial 7s from 100).
4	Definite concentration deficit for persons of their background (e.g., marked deficit on serial 7s, a frequent deficit in subtraction of serial 4s from 40s).
5	Marked concentration deficit (e.g., giving months backwards on serial 2s from 20).
6	Forgot the concentration task. Frequently begins to count forward when asked to count backward from 10 by 1s.
7	Marked difficulty counting forwards to 10 by 1s.

SCORE	ADULT-RECENT MEMORY. Ask "What did you do last weekend? What did you have for breakfast? What is the weather like today? Who is the president, the governor, etc."
1	No objective or subjective evidence of a deficit in recent memory.
2	Subjective impairment only (e.g., forgetting names more than formerly).
3	Deficit in recall of specific events evident upon detailed questioning. No deficit in recall of major recent events.
4	Cannot recall major events of previous weekend or week. Scanty knowledge (not detailed) of current events, favorite TV shows, etc.
5	Unclear of weather, may not know current President or current address.
6	Occasional knowledge of some events. Little or no idea of current address, weather, etc.
7	No knowledge of any recent events.

SCORE	ADULT-PAST MEMORY. Ask "What primary schools did you attend? Where is it located? Who were your primary teachers? Where were you born? Who were your childhood friends? What kind of things did you do with your childhood friends?"
1	No objective or subjective evidence of a deficit in past memory.
2	Subjective impairment only. Can recall two or more primary school teachers.
3	Some gaps in past memory upon detailed questioning. Able to recall at least one childhood teacher and/or one childhood friend.
4	Clear-cut deficit. The spouse recalls more of the patient's past than the patient. Cannot recall childhood friends and/or teachers but knows the names of most schools attended. Confuses chronology in reciting personal history.
5	Major past events are sometimes not recalled (e.g., names of schools attended).
6	Some residual memory of the past (e.g., may recall country of birth or former occupation).
7	No memory of past.

Brief Cognitive Rating Scale Guide:

Geropsychology Assessment Resource Guide, 1993 **Primary Care Tools for Clinicians** Lorraine Loretz, 2005-01-01
Designed to save time and assist busy practitioners this book guides standardized assessment and documentation of a patient's condition by providing ready to use forms that represent the gold standard of current practice *Guide pratique de la consultation en gériatrie* Laurence Hugonot-Diener, 2014-04-01 Le vieillissement de la population confronte de plus en plus le praticien aux patients particuliers que sont les sujets âgés. Outre l'examen clinique traditionnel l'évaluation gériatrique standardisée EGS doit rentrer dans la pratique courante de tout généraliste. Cet examen permet d'évaluer l'ensemble des fonctions cognitives, sociales et l'autonomie fonctionnelle d'un patient. L'aide des nombreux tests courts et pratiques de diagnostic, cet ouvrage permet au praticien de suivre l'évolution physique et psychique des personnes âgées. Il propose tout d'abord un examen clinique spécifique, évaluation cognitive, thymique, nutritionnelle de l'équilibre et de la marche, évaluation fonctionnelle et de l'autonomie, puis un état des lieux des pathologies gériatriques, des pathologies neurodégénératives et des troubles du comportement. Cette nouvelle édition présente notamment les outils opposables PATHOS, outil d'évaluation des troubles pathologiques en EHPAD et propose des tests plus spécifiques à l'attention des sujets fragiles afin de dépister suffisamment tôt cette fragilité et un certain nombre de dispositifs pour mettre en place des attitudes de prévention de traitement et de prises en charge efficaces. Ce guide s'intègre parfaitement dans la pratique des médecins généralistes, des médecins coordonnateurs en EHPAD et de tous les praticiens dans le suivi de leurs patients âgés. **Dementia** Alistair S. Measuring Health Ian McDowell, 2006 Worldwide economic constraints on health care systems have highlighted the importance of evidence based medicine and evidence based health policy The resulting clinical trials and health services research studies require instruments to monitor the outcomes of care and the output of the health system However the over abundance of competing measurement scales can make choosing a measure difficult at best Measuring Health provides in depth reviews of over 100 of the leading health measurement tools and serves as a guide for choosing among them L Now in its third edition this book provides a critical overview of the field of health measurement with a technical introduction and discussion of the history and future directions for the field This latest edition updates the information on each of the measures previously reviewed and includes a complete new chapter on anxiety measurement to accompany the one on depression It has also added new instruments to those previously reviewed in each of the chapters in the book L Chapters cover measurements of physical disability social health psychological well being anxiety depression mental status testing pain general health status and quality of life Each chapter presents a tabular comparison of the quality of the instruments reviewed followed by a detailed

description of each method covering its purpose and conceptual basis its reliability and validity and where possible shows a copy of the actual scale To ensure accuracy of the information each review has been approved by the original author of each instrument or by an acknowledged expert
