AND THE WATERS TURNED TO BLOOD

"A harrowing, brisk account of a microscopic threat to our
collective health and well-being. . . . Compelling, vividly
written."
—Colin Crawford, Chicago Tribune

RODNEY BARKER

WITH AN UPDATE ON "THE CELL FROM HELL"

And The Waters Turned To Blood

Roman Wölfel

And The Waters Turned To Blood:

And the Waters Turned to Blood Rodney Barker, 1997 It seems to be part science fiction part murder mystery But it is not a work of the imagination It s real and it s true First beginning in the 1980s in the estuaries of North Carolina there were dead fish by the thousands stripped to the bone Then the fishermen were attacked afflicted by open sores that would not heal Only when the scientists studying the microscopic monster responsible for these incidents began to suffer from health effects that were mistaken for Alzheimer s disease and multiple sclerosis did state officials reluctantly concede that they might be confronting a terrifying new plague upon our waters Then rather than investigating they went after the messenger Now all along the eastern United States seacoast a mysterious and deadly aquatic organism named *Pfiesteria piscicida* scientists call it the cell from hell threatens to unleash an environmental nightmare and human tragedy of catastrophic proportions In his dramatic and shocking new book Rodney Barker tells the full and terrifying story of a microorganism far closer to home than the Ebola virus and equally frightening At the very center of his narrative is the heroic effort of Dr JoAnn Burkholder and her colleagues embattled and dedicated scientists confronting medical political and corporate powers to understand and conquer this new scourge before it claims more victims BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved
