Andres Oppenheimer Mexico En La Frontera Del Caos:

En la frontera del caos Andrés Oppenheimer, 1996 Exclusive interviews with key political figures in Mexico former presidents Zedillo and Salinas and guerrilla leader Marcos are the basis of this study that untangles the complex influences that have shaped Mexico over the past 20 years From the Zapatistas to electoral fraud this well researched history accounts for many parts of Mexican politics and economies that have remained obscured by official silence Beyond recurring catastrophes however this journalist finds the seed of a modern democracy in Vicente Fox s presidency analyzed in a prologue added for this revised edition México En La Frontera del Caos (NVA Edic) / Mexico: On the Edge of Chaos Andrés Oppenheimer, 2025-02-18 En los años 90 era fácil ver que el torbellino del TLC el levantamiento zapatista y el asesinato de Colosio acercaban la transición democrática en México cosa que ocurrió Pero muy pocos observaron las graves tendencias que subyacen en ese torbellino Andrés Oppenheimer fue tal vez el único periodista que en su momento logró verlo y explicarlo justamente en este libro Detecta que la idiosincrasia priista seguía fuerte y resurgiría que las violencias buscarían otros escenarios que sin reformulaciones económicas los problemas de fondo rebrotarían y que por lo tanto el escenario estaba listo para que surgieran ciertos tipos de liderazgos políticos bastante peligrosos En todo acertó La cuestión es que esas dinámicas persisten Con la diferencia de que ahora los riesgos y las complejidades para atajarlos son mayores Leer esta obra por tanto se convierte en un imperativo para recordar y reaccionar antes de que sea demasiado tarde Porque con esta reedición Oppenheimer nos recuerda que México de nuevo se encuentra en la frontera del caos Para desgracia de México la otrora dictadura perfecta se convirtió bajo López Obrador en una dictadura imperfecta Han pasado casi treinta años desde que escribí México en la frontera del caos y su título ha vuelto a cobrar una vigencia inusitada tras el regreso de casi todos los males que muchos creíamos superados tras el regreso a la democracia en el año 2000 De la Introducción *Courting Democracy in Mexico* Todd A. Eisenstadt, 2003-11-24 This book documents Mexico's gradual transition to democracy written from a perspective which pits opposition activists post electoral conflicts against their usage of regime constructed electoral courts at the centre of the democratization process It addresses the puzzle of why during key moments of Mexico's 27 year democratic transition opposition parties failed to use autonomous electoral courts established to mitigate the country's often violent post electoral disputes despite formal guarantees of court independence from the Party of the Institutional Revolution PRI Mexico's ruling party for 71 years preceeding the watershed 2000 presidential elections Drawing on hundreds of author interviews throughout Mexico over a three year period and extensive archival research the author explores choices by the rightist National Action Party PAN and the leftist Party of the Democratic Revolution PRD between post electoral conflict resolution via electoral courts and via traditional routes mobilization and bargaining with the PRI state Drug Wars and Covert Netherworlds James H. Creechan, 2021-12-07 Drug Wars and Covert Netherworlds describes the history of Mexican narco cartels and their regional and organizational trajectories and differences Covering more than five decades sociologist

James H Creechan unravels a web of government dependence legitimate enterprises and covert connections **The Dynamics of Social Change in Latin America** Henry Veltmeyer, J. Petras, 1999-11-10 This study examines fundamental theoretical and conceptual issues of social change in Latin America in the context of detailed empirical analysis It challenges the major assumptions and propositions that underlie globalization theory reworking and fine tuning the concepts of imperialism and social class as relevant to understanding the new world order The study centers on the structural features of Latin America and the state policies reconcentrating power in the capitalist class at the expense of labor The study surveys the contradictory tendencies of concentrated wealth and power and the emergence of new socio political movements and alternative development strategies to the dominant paradigm **Long Roads To Peace, The - Proceedings Of The Forty-eighth Pugwash Conference On Science And World Affairs** Joseph Rotblat, 2001-01-15 In this book scientists who are pre eminent in their fields focus on the crucial role of science in the transition away from a culture of war towards the construction of peace based on a capacity to anticipate and prevent destructive conflicts The subject matter wide ranging and of great concern to people everywhere includes the progress and prospects for a nuclear weapon free world non nuclear threats to peace and security the building of legitimate world institutions conflict resolution and the construction of peace the local and global environmental dimensions of peace the health hazards of nuclear chemical and biological weapons and the interactions between health problems and poverty La rebelión de Las Cañadas Carlos Tello Díaz, 2013-12-09 La rebelión de las Cañadas es un libro que documenta el levantamiento del EZLN uno de los sucesos más emblemáticos de la historia de México a finales del siglo XX Edición actualizada de un bestseller que generó fuertes reacciones y es hoy un clásico del tema La rebelión de las Cañadas narra la historia de los indígenas que protagonizaron el levantamiento que estalló en 1994 en Chiapas Describe las causas que los obligaron a dejar las fincas de Ocosingo para colonizar la Selva su relación con la diócesis de San Cristóbal por medio de los catequistas su encuentro con la organización política militar de la que surgió el EZLN las Fuerzas de Liberación Nacional El libro está documentado con los testimonios de los protagonistas del levantamiento un bestseller en el momento de salir es hoy un clásico del tema El texto de Tello Díaz publicado por primera vez hace ya cerca de veinte años fue comentado entonces por Hector Aguilar Camín con estas palabras Carlos Tello Díaz ha emprendido en este libro la más sencilla y la más difícil de las tareas en relación con el alzamiento de Chiapas reconstruir los hechos poner fechas y causas a los acontecimientos nombres y rostro humano a las personas instituciones comunidades y movimientos que fraguaron la rebelión Tello Díaz ha devuelto esa rebelión a la historia para sacarla de la mitología **Turning Point** Robert Daniel Tschirgi, 2007-08-30 The danger raised by the terrorist threat is real existential and vital to the United States But the attacks on 9 11 have been broadly misunderstood In assessing the meaning and significance of the war on terror Tschirgi raises many issues related to the Middle East and American policy toward that area For example he debunks the entire exceptionalist approach to the Arab world the presumption that Arab societies fail to be fathomed by Western social science

While Tschirgi stresses the need for resolving the war on terrorism favorably he also suggests two broad policy recommendations First he argues that while the United States should maintain its firm commitment to Israel s preservation as a Jewish state it has no corresponding duty to support Israeli expansionism U S Israeli relations should proceed on this basis and should be informed by a greater American reliance on principles of international law Second Tschirgi concludes that an American withdrawal from Iraq must be effected as early as possible Tschirgi s provocative thesis is that the attacks of 9 11 were not as unique an event as we commonly believe Rather they were understandable though deplorable human reactions to a combination of factors that fueled the Arab world s marginalization and led to a generalized feeling among the people of that region that the West and particularly the United States posed a mortal threat to their identity Employing three case studies of marginalized violent conflict Mexico s Zapatista conflict Egypt s struggle against the Gama a al Islamiyya in Upper Egypt and Nigeria s fight against the Ogoni people in the Niger Delta Tschirgi demonstrates the dynamics through which traditional peoples have in modern times opted to wage hopeless struggle against objectively more powerful states The parallels between the dynamics that informed each of these situations and those marking the international Muslim insurgency against the West are striking as are the significant differences between the two phenomena The parallels are found in the mechanics of marginalization and resistance The differences lie first in the Muslim insurgency s identification of the West as a total enemy and the struggle with it as having a zero sum nature and second in the modern terrorists potential access to lethal means of mass destruction Both the parallels and differences that mark the two phenomena help deepen a real understanding of the meaning of 9 11

Joseph Rotblat, 2001 In this book scientists who are pre eminent in their fields focus on the crucial role of science in the transition away from a culture of war towards the construction of peace based on a capacity to anticipate and prevent destructive conflicts The subject matter wide ranging and of great concern to people everywhere includes the progress and prospects for a nuclear weapon free world non nuclear threats to peace and security the building of legitimate world institutions conflict resolution and the construction of peace the local and global environmental dimensions of peace the health hazards of nuclear chemical and biological weapons and the interactions between health problems and poverty

Women in Mexican Folk Art Eli Bartra, 2013-12-15 The aim of this book is to engender Mexican folk art and locate women at its centre by studying the processes of creation distribution and consumption as well as examining iconographic aspects and elements of class and ethnicity from the perspective of gender The author will demonstrate that the topic provides unique insights into Mexican culture and has enormous relevance within and without the country given the fact that much folk art is made for the United States and Europe either in terms of the tourists who buy it on coming to Mexico or that which is exported
