Anglo Saxon Crafts Revealing History:

Anglo-Saxon Crafts Kevin Leahy, 2003 While the art and craftsmanship of the Anglo Saxons is much admired the background to this superb work is little understood Kevin Leahy a trained craftsman and archaeologist looks at how the artifacts were made at the materials the tools and techniques that were used His survey ranges from casting a brooch to making a sword from pottery and weaving to woodworking and building *The Landscape Archaeology of Anglo-Saxon England* N. J. Higham, Martin J. Ryan, 2010 The Anglo Saxon period was crucial to the development of the English landscape but is rarely studied The essays here provide radical new interpretations of its development Traditional opinion has perceived the Anglo Saxons as creating an entirely new landscape from scratch in the fifth and sixth centuries AD cutting down woodland and bringing with them the practice of open field agriculture and establishing villages Whilst recent scholarship has proved this simplistic picture wanting it has also raised many questions about the nature of landscape development at the time the changing nature of systems of land management and strategies for settlement The papers here seek to shed new light on these complex issues Taking a variety of different approaches and with topics ranging from the impact of coppicing to medieval field systems from the representation of the landscape in manuscripts to cereal production and the type of bread the population preferred they offer striking new approaches to the central issues of landscape change across the seven centuries of Anglo Saxon England a period surely foundational to the rural landscape of today NICHOLAS J HIGHAM is Professor of Early Medieval and Landscape History at the University of Manchester MARTIN J RYAN lectures in Medieval History at the University of Manchester Contributors Nicholas J Higham Christopher Grocock Stephen Rippon Stuart Brookes Carenza Lewis Susan Oosthuizen Tom Williamson Catherine Karkov David Hill Debby Banham Richard Hoggett Peter Murphy **The Rise and Fall of Meter** Meredith Martin, 2012-05-06 Why do we often teach English poetic meter by the Greek terms iamb and trochee How is our understanding of English meter influenced by the history of England's sense of itself in the nineteenth century Not an old fashioned approach to poetry but a dynamic contested and inherently nontraditional field English meter concerned issues of personal and national identity class education patriotism militarism and the development of English literature as a discipline The Rise and Fall of Meter tells the unknown story of English meter from the late eighteenth century until just after World War I Uncovering a vast and unexplored archive in the history of poetics Meredith Martin shows that the history of prosody is tied to the ways Victorian England argued about its national identity Gerard Manley Hopkins Coventry Patmore and Robert Bridges used meter to negotiate their relationship to England and the English language George Saintsbury Matthew Arnold and Henry Newbolt worried about the rise of one metrical model among multiple competitors The pressure to conform to a stable model however produced reactionary misunderstandings of English meter and the culture it stood for This unstable relationship to poetic form influenced the prose and poems of Robert Graves Siegfried Sassoon Wilfred Owen W B Yeats Ezra Pound and Alice Meynell A significant

intervention in literary history this book argues that our contemporary understanding of the rise of modernist poetic form was crucially bound to narratives of English national culture

Anglo-Saxon Saints Lives as History Writing in Late Medieval England Cynthia Turner Camp, 2015 A groundbreaking assessment of the use medieval English history writers made of saints lives The past was ever present in later medieval England as secular and religious institutions worked to recover or create originary narratives that could guarantee they hoped their political and spiritual legitimacy Anglo Saxon England in particular was imagined as a spiritual golden age and a rich source of precedent for kings and for the monasteries that housed early English saints remains This book examines the vernacular hagiography produced in a monastic context demonstrating how writers illuminators and policy makers used English saints including St Edmund to re envision the bonds between ancient spiritual purity and contemporary conditions Treating history and ethical practice as inseparable poets such as Osborn Bokenham Henry Bradshaw and John Lydgate reconfigured England s history through its saints engaging with contemporary concerns about institutional identity authority and ethics Cynthia Turner Camp is an Assistant Professor of English at the University of Georgia

Anglo-Saxon England: Volume 26 Michael Lapidge, Malcolm Godden, Simon Keynes, 1998-06-04 In the present volume the two essays that frame the book provide exciting insight into the mental world of the Anglo Saxons by showing on the one hand how they understood the processes of reading and assimilating knowledge and on the other how they conceived of time and the passage of the seasons In the field of art history two essays treat two of the best known Anglo Saxon manuscripts The lavish symbol pages in the Book of Durrow are shown to reflect a programmatic exposition of the meaning of Easter and a posthumous essay by a distinguished art historian shows how the Anglo Saxon illustrations added to the Galba Psalter are best to be understood in the context of the programme of learning instituted by King Alfred The usual comprehensive bibliography of the previous year s publications in all branches of Anglo Saxon studies rounds off the book
