Anglo-Saxon Manuscripts Mary P. Richards, 2001 This anthology examines Love's Labours Lost from a variety of perspectives and through a wide range of materials. Selections discuss the play in terms of historical context, dating and sources, character analysis, comic elements and verbal conceits, evidence of authorship, performance analysis and feminist interpretations. Alongside theater reviews, production photographs and critical commentary, the volume also includes essays written by practicing theater artists who have worked on the play. An index by name, literary work and concept rounds out this valuable resource. Literary Research and the Anglo-Saxon and Medieval Eras Dustin Booher, Kevin B.

Gunn, 2020-02-20 Literary Research and the Anglo-Saxon and Medieval Eras Strategies and Sources is a guide to scholarly research in the field of medieval English literature covering the period 450 CE to 1500 CE. Graduate students and scholars researching this period face many challenges: working in two distinct literary traditions, comprehending multiple languages (Old English, Middle English, Latin, Anglo-Norman, and French), knowing the manuscript tradition for a particular title, and the research methodologies for discovering and locating primary sources in the print and digital realms. The volume presents the best practices for building a foundation of sound scholarship practices in the field of medieval English literature. This volume explores primary and secondary resources, including general literary research guides, types of library catalogs, print and online bibliographies and indexes, scholarly journals and series, manuscripts, archives and digital collections, genres, tools for understanding Old and Middle English (such as dictionaries, lexicons, thesauri, glosses, etymologies, palaeographies, and text mining tools) and Web resources. The final chapter researches the shifting reputation of the poet Thomas Hoccleve. Given the interdisciplinary nature of medieval studies, an appendix of additional readings in art history, music, philosophy, religion, science, social sciences, and theater is provided. **The Princeton Encyclopedia of Poetry and Poetics** Roland

Medieval England Hannah Ryley, 2022 A fresh appraisal of late medieval manuscript culture in England, examining the ways in which people sustained older books, exploring the practices and processes by which manuscripts were crafted, mended, protected, marked, gifted and shared. During the long fifteenth century (c. 1375-1530) the demand for books in England flourished. The fast-developing book trade produced them in great quantity. Fragments of manuscripts were often repurposed as flyleaves and other components, such as palimpsests, and alongside the creation of new books, medieval manuscripts were also repaired, recycled and re-used. This monograph examines the ways in which people sustained older books, exploring the practices and processes by which manuscripts were crafted, mended, protected, marked, gifted and shared. Drawing on the

codicological evidence gathered from an extensive survey of extant manuscript collections in conjunction with historical accounts recipes and literary texts it presents detailed case studies exploring parchment production and recycling the re use of margins and second hand exchanges of books Its engagement with the evidence in and inscribed on surviving books enables a fresh appraisal of late medieval manuscript culture in England looking at how people went about re using books and arguing that over the course of this period books were made used and re used in a myriad of sustainable ways *Runes and Roman Letters in Anglo-Saxon Manuscripts* Victoria Symons,2016-10-24 This book presents the first comprehensive study of Anglo Saxon manuscript texts containing runic letters To date there has been no comprehensive study of these works in a single volume although the need for such an examination has long been recognized This is in spite of a growing academic interest in the mise en page of early medieval manuscripts The texts discussed in this study include Old English riddles and elegies the Cynewulfian poems charms Solomon and Saturn I and the Old English Rune Poem The focus of the discussion is on the literary analysis of these texts in their palaeographic and runological contexts Anglo Saxon authors and scribes did not of course operate within a vacuum and so these primary texts are considered alongside relevant epigraphic inscriptions physical objects and historical documents Victoria Symons argues that all of these runic works are in various ways thematically focused on acts of writing visual communication and the nature of the written word The conclusion that emerges over the course of the book is that when encountered in the context of Anglo Saxon manuscripts runic letters consistently represent the written word in a way that Roman letters do not Reading Skin in Medieval Literature and Culture K.
