

ANIMAL RIGHTS

THE ABOLITIONIST APPROACH

Gary L. Francione & Anna Charlton

Animal Rights Abolitionist Gary Francione

Raffael N Fasel, Sean C Butler

Animal Rights Abolitionist Gary Francione:

Animals as Persons Gary Lawrence Francione, 2008 Gary L. Francione explains our historical and contemporary attitudes about animals by distinguishing the issue of animal use from that of animal treatment. He then presents a theory of animal rights that focuses on the need to accord all sentient nonhumans the right not to be treated as property. **Rain Without Thunder** Gary Francione, 2010-06-17 A powerful re-examination of the animal rights movement and its shortcomings. The Oxford Handbook of Animal Studies Linda Kalof, 2017-02-01 Intellectual struggles with the animal question how humans can rethink and reconfigure their relationships with other animals first began to take hold in the 1970s. Over the next forty years, scholars from a wide range of fields would make sweeping reevaluations of the relationship between humans and other animals. The Oxford Handbook of Animal Studies brings these diverse evaluations together for the first time, paying special attention to the commodification of animals, the degradation of the natural world, and a staggering loss of animal habitat and species extinction, and the increasing need for humans to coexist with other animals in urban, rural, and natural contexts. Linda Kalof maps these themes into the five major categories that structure this volume: Animals in the Landscape of Law, Politics, and Public Policy; Animal Intentionality, Agency, and Reflexive Thinking; Animals as Objects in Science, Food, Spectacle, and Sport; Animals in Cultural Representations; and Animals in Ecosystems. Written by international scholars with backgrounds in philosophy, law, history, English, art, sociology, geography, archaeology, environmental studies, cultural studies, and animal advocacy, the thirty chapters in this handbook investigate key issues and concepts central to understanding our current relationship with other animals and the potential for coexistence in an ecological community of living beings.

Animal Rights Law Raffael N. Fasel, Sean C. Butler, 2023-02-23 Do animals have legal rights? This pioneering book tells readers everything they need to know about animal rights law. Using straightforward examples from over 30 legal systems from both the civil and common law traditions and based on popular courses run by the authors at the Cambridge Centre for Animal Rights, the book takes the reader from the earliest anti-cruelty laws to modern animal welfare laws to recent attempts to grant basic rights and personhood to animals. To help readers understand this legal evolution, it explains the ethics, legal theory, and social issues behind animal rights and connected topics such as property, subjecthood, dignity, and human rights. The book's companion website, [bloomsbury.com/animal-rights-law/](https://www.bloomsbury.com/animal-rights-law/), provides access to briefs on the latest developments in this fast-changing area and gives readers the tools to investigate their own legal systems with a list of key references to the latest cases, legislation, and jurisdiction-specific bibliographic references. Rich in exercises and study aids, this easy-to-use introduction is a prime resource for students from all disciplines and for anyone else who wants to understand how animals are protected by the law. Animals as Legal Beings Maneesha Deckha, 2020-12-16 In *Animals as Legal Beings*, Maneesha Deckha critically examines how Canadian law and, by extension, other legal orders around the world participate in the social construction of the human-animal divide and the abject rendering of animals as property. Through a rigorous but cogent

analysis Deckha calls for replacing the exploitative property classification for animals with a new transformative legal status or subjectivity called beingness In developing a new legal subjectivity for animals one oriented toward respecting animals for who they are rather than their proximity to idealized versions of humanness Animals as Legal Beings seeks to bring critical animal theorizations and animal law closer together Throughout Deckha draws upon the feminist animal care tradition as well as feminist theories of embodiment and relationality postcolonial theory and critical animal studies Her argument is critical of the liberal legal view of animals and directed at a legal subjectivity for animals attentive to their embodied vulnerability and desirous of an animal friendly cultural shift in the core foundations of anthropocentric legal systems Theoretically informed yet accessibly presented Animals as Legal Beings makes a significant contribution to an array of interdisciplinary debates and is an innovative and astute argument for a meaningful more than human turn in law and policy

The Postcolonial Animal Evan Mwangi,2019-09-06 Despite the central role that animals play in African writing and daily life African literature and African thinkers remain conspicuously absent from the field of animal studies The Postcolonial Animal African Literature and Posthuman Ethics demonstrates the importance of African writing to animal studies by analyzing how postcolonial African writing including folktales religion philosophy and anticolonial movements has been mobilized to call for humane treatment of nonhuman others Mwangi illustrates how African authors grapple with the possibility of an alternative to eating meat and how they present postcolonial animal consuming cultures as shifting toward an embrace of cultural and political practices that avoid the use of animals and minimize animal suffering The Postcolonial Animal analyzes texts that imagine a world where animals are not abused or used as a source of food clothing or labor and that offer instruction in how we might act responsibly and how we should relate to others both human and nonhuman in order to ensure a world free of oppression The result is an equitable world where even those who are utterly foreign to us are accorded respect and where we recognize the rights of all marginalized groups **The Political Turn in Animal Ethics**

Robert Garner,Siobhan O'Sullivan,2016-09-23 The debate about our treatment of nonhuman animals has been traditionally dominated by moral philosophers and the crucially important role of politics has been hitherto neglected This innovative edited collection seeks to redress the imbalance by interrogating some vital questions about this so called political turn in animal ethics The questions tackled include What can political philosophy tell us about our moral obligations to animals Should the boundaries of the demos be expanded to allow for the inclusion of animals What kind of political system is most appropriate for the protection of animals Does the protection of animals require limits to democracy as in constitutional devices or a usurping of democracy as in direct action What can the work of political scientists tell us about the governance of animal welfare Leading scholars in the field explain how engaging with politics in its empirical and normative guises can throw much needed light on the question of how we treat animals and how we ought to treat them *I Will Abolish the Bow* Matthew A. King,2021-06-22 To be designated a person carries with it enormous social and legal entitlements Christians may

be surprised to discover that the Bible considers animals persons I Will Abolish the Bow details this biblical personhood and demands that humanity reverses course on its exploitation and irresponsible dominion over animals Filled with educational rebuttals and thoughtful discourse this book is certain to challenge traditional Christian teachings on animals This book is guaranteed to satisfy Christians who desire justice for all of God s creatures *Animals in the International Law of Armed Conflict* Anne Peters,Jérôme de Hemptinne,Robert Kolb,2022-10-06 Raises the novel legal question of animals during warfare highlighting deficiencies in current practice and suggesting new readings and reforms **Research Handbook on Animal Law and Animal Rights** Tomasz Pietrzykowski,Birgitta Wahlberg,2025-09-10 This Research Handbook examines contemporary animal law and its relationship to the philosophical and legal idea of animal rights Adopting an inter and multidisciplinary approach it explores the role of legal theory legal practice strategic litigation and advocacy in the global development of laws protecting animals Tomasz Pietrzykowski and Birgitta Wahlberg bring together expert contributing authors to discuss interspecies constitutionalizing and the evolution of animal law scholarship

As recognized, adventure as without difficulty as experience practically lesson, amusement, as with ease as contract can be gotten by just checking out a book **Animal Rights Abolitionist Gary Francione** as well as it is not directly done, you could tolerate even more as regards this life, in relation to the world.

We have enough money you this proper as capably as easy showing off to get those all. We present Animal Rights Abolitionist Gary Francione and numerous ebook collections from fictions to scientific research in any way. among them is this Animal Rights Abolitionist Gary Francione that can be your partner.
