Animals Biopolitics Law Lively Legalities:

Animals, Biopolitics, Law Irus Braverman, 2015-12-22 Typically the legal investigation of nonhuman life and of animal life in particular is conducted through the discourse of animal rights. Within this discourse legal rights are extended to certain nonhuman animals through the same liberal framework that has afforded human rights before it. *Animals Biopolitics Law* envisions the possibility of lively legalities that move beyond the humanist perspective. Drawing on an array of expertise from law, geography and anthropology through animal studies and posthumanism to science and technology studies, this interdisciplinary collection asks what in legal terms it means to be human and nonhuman, what it means to govern and to be governed, and what are the ethical and political concerns that emerge in the project of governing not only human but also more than human life.

Laws of the Sea Irus Braverman, 2022-08-03 *Laws of the Sea* assembles scholars from law, geography, anthropology and environmental humanities to consider the possibilities of a critical ocean approach in legal studies. Unlike the United Nations' monumental Convention on the Law of the Sea, which imagines one comprehensive constitutional framework for governing the ocean, *Laws of the Sea* approaches oceanic law in plural and dynamic ways. Critically engaging contemporary concerns about the fate of the ocean, the collection's twelve chapters range from hydrothermal vents through the continental shelf and marine genetic resources to coastal communities in France, Sweden, Florida and Indonesia. Documenting the longstanding binary of land and sea, the chapters pose a fundamental challenge to Europe's law's terracentrism and its pervasive influence on juridical modes of knowing and making the world. Together, the chapters ask if contemporary Eurocentric law and international law, in particular, are capable of moving away from its capitalist and colonial legacies established through myriad oceanic abstractions and classifications toward more

amphibious legalities *Laws of the Sea* will appeal to legal scholars geographers anthropologists cultural and political theorists as well as scholars in the environmental humanities political ecology ocean studies and animal studies The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
