Biological Weapons DR. U C Jha, Dr K Ratnabali, 2021-02-01 The threat of biological weapons has been worrying about the armed forces as well as political leaders for quite some time With the global recorded deaths from COVID 19 surpassing one million the biotechnological revolution has heightened the fear of future weaponized pathogens The COVID 19 virus or its variant could be the most effective weapon for future biological warfare The indiscriminate effect of such a weapon and its power to cripple economies and devastate the lives of people may make it attractive to rogue States and non State actors This book provides an updated analysis of biological warfare agents including the COVID 19 virus biotechnological developments affecting biological agents and the legal regime responsible for preventing the use of biological weapons

Epidemic Encounters, Communities, and Practices in the Colonial World Poonam Bala, Russel Viljoen, 2023-01-24 The essays in this volume examine the nature and extent of disease on indigenous communities and local populations located within the vast regions of the Indian and Pacific Oceans as a result of colonial sea power and colonial conquest While this established a long term impact of disease on populations the essays also offer insights into the dynamics of these populations in resisting colonial intrusions and introduction of disease to newly acquired territories

Paralysed with Fear Gareth Williams, 2013-06-27 The story of mankind s struggle against polio is compelling exciting and full of twists and paradoxes One of the grand challenges of modern medicine it was a battleground between good and bad science Gareth Williams takes an original view of the journey to understanding and defeating polio

A Reconciliation without Recollection? Joshua Ben David Nichols, 2019-11-20 The current framework for reconciliation between Indigenous peoples and the Canadian state is based on the Supreme Court of Canada s acceptance of the Crown s assertion of sovereignty legislative power and

underlying title The basis of this assertion is a long standing interpretation of Section 91 24 of Canada s Constitution which reads it as a plenary grant of power over Indigenous communities and their lands leading the courts to simply bypass the question of the inherent right of self government In A Reconciliation without Recollection Joshua Ben David Nichols argues that if we are to find a meaningful path toward reconciliation we will need to address the history of sovereignty without assuming its foundations Exposing the limitations of the current model Nichols carefully examines the lines of descent and association that underlie the legal conceptualization of the Aboriginal right to govern Blending legal analysis with insights drawn from political theory and philosophy A Reconciliation without Recollection is an ambitious and timely intervention into one of the most pressing concerns in Canada

Epidemics Howard Phillips, 2012-09-12 This is the first history of epidemics in South Africa lethal episodes that significantly shaped this society over three centuries Focusing on five devastating diseases between 1713 and today smallpox bubonic plague Spanish influenza polio and HIV AIDS the book probes their origins their catastrophic courses and their consequences in both the short and long terms The impacts of these epidemics ranged from the demographic the Spanish flu for instance claimed the lives of six percent of the country s population in six weeks to the political the social the economic the spiritual the psychological and the cultural Moreover as each of these epidemics occurred at crucial moments in the country s history such as during the South African War and World War I the book also examines how these processes affected and were affected by the five epidemics To those who read this book history will not look the same again

Viruses Natalie Goldstein, Margaux Baum, 2016-07-15 The simplest living organisms on Earth viruses are endlessly studied and yet remain a great mystery They are the cause of many human and animal illnesses from the numerous and common cold and flu viruses that plague us for a few days or weeks to more insidious but treatable viral infections such as HPV to the most feared killer viruses such as HIV and Ebola In this book readers explore the mechanics of how infections occur and what kinds of diseases arise from what types of viruses They delve into the modern landscape of prevention and cure including how vaccines work
