A New Response To Youth Crime:

A New Response to Youth Crime David Smith, 2012-09-10 Antisocial and criminal behaviour involving children and young people have been a cause of heightened public concern in England and Wales for more than a quarter of a century. It has been the subject of numerous policy papers, research studies and academic assessments as well as extensive newspaper, radio and television coverage. This has set the context for an ever expanding volume of legislation seeking to amend and improve society's official response. Yet despite a massive injection of resources into the youth justice system the results achieved have been unimpressive; reoffending remains a persistent problem and the general public appears to have little confidence in the youth justice system. The time is ripe therefore for a new look at the problem of youth offending and government and society's response to this. This book accompanies the Report of the Independent Commission on Youth Crime and Antisocial Behaviour published 2010. In it leading authorities in the field from a variety of different disciplines review youth crime and different responses to it, focussing particularly on England and Wales but also analysing for comparative purposes the nature of responses in other parts of the world, especially Canada. It will be essential reading for practitioners, policy makers, students and others with an interest in addressing one of today's most intractable social problems.

Responding to Youth Crime

Paul Omaji, 2003 This book presents a critique of the traditional responses to youth crime by criminal justice agencies in Australia, UK, New Zealand, USA, Canada and a vision of how these agencies could respond more effectively. The critique examines the ways in which traditional criminal justice approaches trap young people into rather than turn them away from a life of crime. The vision is for criminal justice agencies, police, courts and corrections to become more pro-active partners in society's efforts to guide young people towards becoming happy and productive citizens; for these agencies to focus less on the exercise of retributive powers and to embrace restorative approaches and for agencies to develop a crime prevention role through partnership with community organisations. Author Paul Omaji argues against concentrating resources on the symptom when the underlying causes are within our intellectual grasp and amenable to effective criminal justice responses. Omaji demonstrates the capacity of criminal justice agencies to become constructive partners with community organisations in preventing youth crime and constructs ground rules for high impact partnerships.
