A Peoples History Of The New Boston:

A People's History of the New Boston Jim Vrabel, 2014 *A People's Guide to Greater Boston* Joseph Nevins, Suren Moodliar, Eleni Macrakis, 2020-07-07 *A People's Guide to Greater Boston* reveals the region's richness and vibrancy in ways that are neglected by traditional area guidebooks and obscured by many tourist destinations. Affirming the hopes, interests, and struggles of individuals and groups on the receiving end of unjust forms of power, the book showcases the ground-level forces shaping the city. Uncovering stories and places central to people's lives over centuries, this guide takes readers to sites of oppression, resistance, organizing, and transformation in Boston and outlying neighborhoods and municipalities from Lawrence Lowell and Lynn to Concord and Plymouth. It highlights tales of the places and people involved in movements to abolish slavery, to end war and militarism, to achieve Native sovereignty, racial equity, gender justice, and sexual liberation, and to secure workers' rights. In so doing, this one-of-a-kind guide points the way to a radically democratic Greater Boston, one that sparks social and environmental justice and inclusivity for all.

After the Projects Lawrence J. Vale, 2019. America is in the midst of a rental housing affordability crisis. More than a quarter of those that rent their homes spend more than half of their income for housing, even as city leaders across the United States have been busily dismantling the nation's urban public housing projects. In *After the Projects*, Lawrence Vale investigates the deeply rooted spatial politics of public housing development and redevelopment at a time when lower-income Americans face a desperate struggle to find affordable rental housing in many cities. Drawing on more than 200 interviews with public housing residents, real estate developers, and community leaders, Vale analyzes the different ways in which four major American cities implemented the federal government's HOPE VI program for public housing transformation, while also providing a national picture of this program. Some cities attempted to minimize the presence of the poorest residents in their new mixed-income communities, but other cities tried to serve as many low-income households as possible. Through examining the social, political, and economic forces that underlie housing displacement, Vale develops the novel concept of governance constellations. He shows how the stars align differently in each city, depending on community pressures that have evolved in response to each city's past struggles with urban renewal. This allows disparate key players to gain prominence when implementing HOPE VI redevelopment. A much-needed comparative approach to the existing research on public housing, *After the Projects* shines a light on the broad variety of attitudes towards public housing redevelopment in American cities and identifies ways to achieve more equitable processes and outcomes for low-income Americans.

A History of Boston Daniel Dain, 2024-09-19. Dain's *A History of Boston* helps the reader understand how land use and environment contribute to shaping a community. Dain's *Boston* is the go-to book. R.J. Lyman: Boston is today one of the world's greatest cities, first in higher education, hospitals, life science companies, and sports teams. It was the home of the Great Puritan Migration, the American Revolution, the Industrial Revolution, the first civil rights movement, the abolition movement, and the women's rights movement. But the city that gave us the first use of ether as
