Thackston, 1994 **Routledge Handbook of Ancient, Classical and Late Classical Persian Literature** Kamran Talattof, 2023-06-06 The Routledge Handbook of Ancient Classical and Late Classical Persian Literature contains scholarly essays and sample texts related to Persian literature from 650 BCE through the 16th century CE It includes analyses of some seminal ancient texts and the works of numerous authors of the classical period The chapters apply a disciplinary or interdisciplinary approach to the many movements genres and works of the long and evolving body of Persian literature produced in the Persianate World These collections of scholarly essays and samples of Persian literary texts provide facts general information instructions ways to understand analyze and appreciate this body of works and the field's state of the art research the problematics of the topics regarding one of the most important and oldest literary traditions in the world Thus the Handbook's chapters and related texts provide scholars students and admirers of Persian poetry and prose with practical and direct access to the intricacies of the Persian literary world through a chronological account of key moments in the formation of this enduring literary tradition The related Handbook also edited by Kamran Talattof Routledge Handbook of Post Classical and Contemporary Persian Literature covers Persian literary works from the 17th century to the present **Persian Words of Wisdom** Bahman Solati, 2015-10-05 What is the secret of happiness What is the nature of love What makes us good hosts or good guests What traits should we seek out in friends and seek to embody as friends ourselves How should we approach the sensual beauties of this world when do they induce us to error and when are they signs of God The poets and bards of many traditions have long sought answers to such questions but perhaps no culture has taken up this challenge with more passionate urgency than that of Persia from the ninth century AD to modern day Iran These eleven centuries of poetic tradition include poets who have become well known in the West such as Umar Khayyam Rumi and Hafiz as well as many others whom Westerners have yet to discover In Iran these poems remain part of everyday popular culture with people of all classes and levels of education able to recite them from memory even if they may not always be sure who the poets were where they came from or what precisely was the spiritual intent behind the verse In *Persian Words of Wisdom* the US based Iranian scholar Bahman Solati has compiled hundreds of examples reflecting his country's religious and spiritual traditions especially the Shia branch of Islam and Islamic Sufism but also the Zoroastrian faith This bilingual edition with his own English translations further illuminates the sometimes enigmatic poems with parallel Western proverbs as well as comparison quotations from Christian Jewish and Buddhist scripture and secular sources ranging from Mark Twain to Dale Carnegie One of Solati's goals in this anthology is to build a cultural bridge through poetry between the West and Iran

making these treasures of Persian culture more available both to Westerners generally and most specifically to young people of Iranian descent who have grown up in the English speaking world perhaps without fully understanding the wealth of their heritage For them and all readers this will be a book of discovery **Die Romische Republik** EPUB 2-3,2015-04-22
