Each year, Museum Studies MA students at the UCL Institute of Archaeology enrol on the 'Exhibition Project' course, in which they stage an exhibition using two display cases in the Institute's A.G. Leventis Gallery. This year, the Exhibition Project had an added dimension in that the course-examiners were also our clients and subject matter. Eleven Museum Studies students, only two of whom had an archaeological background, were given the challenge of producing an exhibition on the topic of the 75th anniversary of

the Institute of Archaeology. We were provided with £1,000, given a set of deadlines, and then largely left to it. The outcome – the exhibition *Breaking Ground: 75 Years of Pioneering Archaeology* – is on public display from May 2012 to February 2013 (**Fig. 1**).

The Exhibition Project gives students a chance to discover what goes on behind the scenes in making an exhibition. The course is invaluable in teaching students how to work as part of a team and to take proper responsibility for their own learning – and results in a tangible piece of work. In making the 2012 exhibition, nothing was outsourced unless the team chose to do so, and the core exhibition roles were played by each team-member. One student was an Evalu-

Breaking Ground Getzel M. Cohen, Martha Sharp Joukowsky, 2004 Biographies of twelve often overlooked woman archaeologists

Women in Archaeology Sandra L. López Varela, 2023-07-12 This book tells the story of women in archaeology worldwide and their dedication to advancing knowledge and human understanding In their own voices they present themselves as archaeologists working in academia or the private and public sector across 33 countries The chapters in this volume reconstruct the history of archaeology while honoring those female scholars and their pivotal research who are no longer with us Many scholars in this volume fiercely explore non traditional research areas in archaeology The chapters bear witness to their valuable and unique contributions to reconstructing the past through innovative theoretical and methodological approaches In doing so they share the inherent difficulties of practicing archaeology not only because they too are mothers sisters and wives but also because of the context in which they are writing This volume may interest researchers in archaeology history of science gender studies and feminist theory Chapter 11 is available open access under a Creative Commons Attribution 4 0 International License via link [springer.com](https://www.springer.com)

Archaeology, Sexism, and Scandal Alan Kaiser, 2023-06-14 A true story of plagiarism complicity and a 1930s excavation that has the arresting immediacy of investigative journalism The Journal of Hellenic Studies The 1931 excavation season at Olynthus Greece ushered a sea change in how archaeologists study material culture and was the nexus of one of the most egregious and underreported cases of plagiarism in the history of classical archaeology In this book Alan Kaiser draws on the private scrapbook that budding archaeologist Mary Ross Ellingson compiled during that dig as well as her personal correspondence and materials from major university archives to paint a fascinating picture of gender power and archaeology in the early twentieth century Using Ellingson s photographs and letters as a guide Kaiser brings alive the excavations led by David Robinson and recounts how the unearthing of private homes rather than public spaces emerged as a means to examine the day to day of ancient life in Greece But as Archaeology Sexism and Scandal clearly demonstrates a darker story lurks beneath the smiling faces and humorous tales one in which Robinson stole Ellingson s words and insights for his own and fellow academics looked the other way denying her the credit she was due for more than eighty years Kaiser s exciting and timely volume should force readers to openly confront gender related biases in science and academia Library Journal starred review Important Publishers Weekly Highly recommended Choic

The Life of Margaret Alice Murray Kathleen L. Sheppard, 2013-08-01 The Life of Margaret Alice Murray A Woman s Work in Archaeology is the first book length biography

of Margaret Alice Murray 1863-1963 one of the first women to practice archaeology. Despite Murray's numerous professional successes, her career has received little attention because she has been overshadowed by her mentor Sir Flinders Petrie. This oversight has obscured the significance of her career, including her fieldwork, the students she trained, her administration of the pioneering Egyptology Department at University College London (UCL), and her published works. Rather than focusing on Murray's involvement in Petrie's archaeological program, Kathleen L. Sheppard treats Murray as a practicing scientist with theories, ideas, and accomplishments of her own. This book analyzes the life and career of Margaret Alice Murray as a teacher, excavator, scholar, and popularizer of Egyptology, archaeology, anthropology, linguistics, and more. Sheppard also analyzes areas outside of Murray's archaeology career, including her involvement in the suffrage movement, her work in folklore and witchcraft studies, and her life after her official retirement from UCL.

British Women's Travel to Greece, 1840-1914

Churnjeet Mahn, 2016-04-15. Beginning with the publication of the first Murray guidebook to Greece in 1840 and ending with Virginia Woolf's journey to Athens, this book offers a genealogy of British women's travel literature about Greece. Churnjeet Mahn recounts the women's first-hand experiences of the sites and sights of antiquity, analyzing travel accounts by archaeologists, ethnographers, journalists, and tourists to chart women's renderings of Modern Greece through a series of discursive lenses. Mahn's offers insights into the importance of the Murray and Baedeker guidebooks, how knowledge of Greece and Classical Studies were used to justify colonial rule of India at the same time that Agnes Smith Lewis and Jane Ellen Harrison used Greece as a symbol of women's emancipation. British women's production of the first anthropological accounts of Modern Greece and *fin de siècle* women who asserted their right to see and claim antiquity at the same time that the safety of the independent lady traveler was being called into question by the media.
