Bridget Riley Works 1960 1966:

Bridget Riley Bridget Riley, 2012 This title features over 40 works from the beginning of the artist's impressive career. These iconic black and white works, paintings, gouaches, and prints challenge the viewer's sensations and form the foundation of Riley's continued explorations of shape, movement, and perception over the following four decades and continued today. Exhibition, Karsten Schubert, London, UK, 24.5.6.7.2012. *Bridget Riley: Works from 1981-2015* Bridget Riley, 2016-07-26. Bridget Riley's explorations of perception through form and color have made her into one of the most significant painters working today. Since the early 1960s, she has used elementary shapes, lines, circles, curves, and squares to create visual experiences that immediately draw the viewer in, often triggering optical vibrations and illusions. More recently, Riley has shifted back to black and white in her large-scale paintings, marking a departure from her recent colored stripe paintings and a return to the palette of some of her earliest works. Published on the occasion of her 2015 solo exhibition at David Zwirner, *Bridget Riley Works 1981-2015* presents paintings from the last thirty-four years of her career, including images of Rajasthan, a wall painting previously shown in Germany and England, and exhibited for the first time in New York. These dynamic reproductions begin with stripe paintings from the 1980s and end with a coda of sorts, a return to black and white that ties back to her work from the 1960s but bears traces of Riley's deep engagement with color in the interim. As critic Ric de Chassey puts it in his essay for Riley's 2015 catalogue with Galerie Max Hetzler: "The black and white paintings not only enter into a dialogue with the 1960s works but take stock of every painting experience Riley has created during a long career." Also included is a selection of the artist's works on paper. Taken together, these complementary aspects of her practice over the past four decades reveal the astonishing variety she has achieved by developing and rediscovering different forms. An essay by art historian Richard Shiff helps contextualize the developments in Riley's practice since the early 1980s and further emphasizes her influence and lineage as a painter. Rounding out the publication are biographical notes by Robert Kudielka, one of the artist's foremost critics. With a career spanning six decades, Bridget Riley remains one of the most exciting painters today, and *Bridget Riley Works 1981-2015* presents a selection of works from what may be her richest period to date.

Bridget Riley: The Stripe Paintings 1961-2014 Bridget Riley, 2014-10-31. Published on the occasion of Bridget Riley's major exhibition at David Zwirner in London in the summer of 2014, this fully illustrated catalogue offers intimate explorations of paintings and works on paper produced by the legendary British artist over the past fifty years, focusing specifically on her recurrent use of the stripe motif. Riley has devoted her practice to actively engaging viewers through elementary shapes such as lines, circles, curves, and squares, creating visual experiences that at times trigger optical sensations of vibration and movement. The London show, her most extensive presentation in the city since her 2003 retrospective at Tate Britain, explored the stunning visual variety she has managed to achieve working exclusively with stripes, manipulating the surfaces of her vibrant canvases through subtle changes in hue, weight, rhythm, and density. As noted

by Paul Moorhouse Throughout her development Riley has drawn confirmation from Eugene Delacroix's observation that the first merit of a painting is to be a feast for the eyes Her most recent stripe paintings are a striking reaffirmation of that principle exciting and entrancing the eye in equal measure Created in close collaboration with the artist the publication's beautifully produced color plates offer a selection of the iconic works from the exhibition These include the artist's first stripe works in color from the 1960s a series of vertical compositions from the 1980s that demonstrate her so-called Egyptian palette a narrow chromatic range that recalled natural phenomena and an array of her modestly scaled studies executed with gouache on graph paper and rarely before seen A range of texts about Riley's original and enduring practice grounds and contextualizes the images including new scholarship by art historian Richard Shiff texts on both the artist's wall paintings and newest body of work by Paul Moorhouse 20th Century Curator at the National Portrait Gallery in London and a 1978 interview with Robert Kudielka her longtime confidant and foremost critic Additionally the book features little seen archival imagery of Riley at work over the years documentation of her recent commissions for St Mary's Hospital in West London taken especially for this publication and installation views of the exhibition itself installed throughout the three floors of the gallery's eighteenth century Georgian townhouse located in the heart of Mayfair American Art of the 1960s Irving Sandler, 1988 Sandler covers the art artists and movements of the sixties Painterly and Post Painterly Painting Pop Art New Perceptual Realism Op Art and Kinetic Sculpture Minimal Sculpture Construction Sculpture Eccentric and Process Art Earthworks Conceptual and Performance Art and so on He discusses the aesthetics of art as well as the social and political context of art the art market the art world and the culture heroes of the sixties Provided by publisher **Bridget Riley** Bridget Riley, British Council, 1978 *The Look of the 1960s* Jan Baetens, Hugo Frey, 2026-01-06 How the classic aesthetic of 1960s pulp comics influenced art culture and politics As a form of visual art comic books rely on a distinct and eye-catching aesthetic This is especially true of the iconic comics graphic novels and illustrations of the 1960s and 1970s *The Look of the 1960s* explores the sources of inspiration that influenced the world of comics beginning with the well-known French comics series Barbarella Noted comics scholars Jan Baetens and Hugo Frey analyze the impacts of the often provocative images featured in the comics of the 1960s which pushed back against French censorship in a politically tense time and detail how women resisted their objectification in the comic book industry Barbarella left its mark on the world and gained international attention inspiring a movie adaptation and changing the look and content of other popular comics The Pulp Pop movement remains relevant today continuing to influence the art and political world With new information about artists and an astute analysis of sociopolitical influence *The Look of the 1960s* offers deep insights making it a must-read for comics fans all over the world *Bridget Riley: Recent Paintings 2014-2017* Bridget Riley, Richard Shiff, 2018-11-20 The quest for discovery through looking is the driving force of Bridget Riley's work as she has written More than anything else I want my paintings to exist on their own terms That is to say they must stealthily engage and disarm you There the paintings hang deceptively

simple telling no tales as it were resisting in a well behaved way all attempts to be questioned probed or stared at and then for those with open eyes serenely disclosing some intimations of the splendors to which pure sight alone has the key This publication unfolds along the lines of Riley's 2018 exhibition at David Zwirner London Beginning with an exploration of black and white equilateral triangles Riley leads the viewer into an awareness of the ways in which a surface wall or canvas can affect a seemingly simple form the triangle While she demonstrates these subtle changes Riley manipulates this form by bending its sides At first sight the viewer may experience this as a breaking apart but as one continues to look serpentine movements appear or large shadowy triangles which advance and recede These paintings constantly reinvent themselves through looking Riley is revisiting and developing works which she initiated over fifty years ago as is shown here by the inclusion of *Black to White Discs* 1962 1965 in the exhibition This diamond formation of discs which graduates in tone from white to black and back again offers a lead in to her new body of work In *Cosmos* and the *Measure for Measure* series Riley recalls a group of subtly shaded colors used this time in discs While the compositions remain fundamentally the same the play of colors changes every time The exhibition ends with a surprisingly spacious wall painting that offers the viewer many delights not least among them a dance of fugitive white lights Here Riley disarms the viewer encouraging us once again in an adventure of discovery In his essay Richard Shiff explores Riley's ability to give new life to basic forms as she invites the audience any audience to help participate in the painting

Visual Allusions Nicholas Wade, 2017-03-27 In this book a leading researcher and artist explores how we see pictures and how they can communicate messages to us both directly and indirectly by making allusions to objects in space or to stored images in our minds Originally published in 1990 Dr Wade provides fascinating examples of pictures that communicate hidden messages either by implying something else or by a shape or portrait which is carried covertly within another design He analyses image processing stages in vision demonstrating that the various stages may be related to styles in representational art He shows how the way we have been taught to look at and recognise objects affects the way we see them The book lavishly illustrates with original examples of visual allusions and includes detailed practical advice on how photographers and designers can create them Essential reading for photographers designers artists people in film and television and anyone involved in visual science visual communication and advertising

Reel Rebels: the London Film-Makers' Co-Operative 1966 to 1996 Joy I. Payne, 2015-07-17 The London FilmMakers Cooperative was founded in 1966 by a group of artists who sought to explore the possibilities of the moving image whilst maintaining autonomy over the production distribution and exhibition of their work Although their films were not overtly political artists nevertheless expressed their political attitudes by creating nonnarrative films thereby rejecting conventional narrative structures associated with mainstream commercial

cinema which they perceived as supporting the dominant ideology in society A return to narrative in the 1980s coincided with the introduction of British Art Cinema and the art house films of Derek Jarman Peter Greenaway and Sally Potter all of whom made experimental films in the early days of the London Co op
