psychoanalytic knowledge from diverse schools Freudian Kleinian Lacanian Relational etc to explore how damage to specific areas of the brain can change the mind Twenty years after the publication of Clinical Studies in Neuro Psychoanalysis this book continues the pioneering work of Mark Solms and Karen Kaplan Solms bringing together clinicians and researchers from all over the world to report key developments in the field They present a rich set of new case studies from a diverse range of brain injuries neuropsychological impairments and even degenerative and paediatric pathologies This volume will be of immense value to those working with neurological populations that want to incorporate psychoanalytic ideas in case formulations as well as for those who want to introduce themselves in the neurological basis of psychoanalytic models of the mind and the broader psychoanalytic community The Self in Understanding and Treating Psychological Disorders Michael Kyrios, Richard Moulding, Guy Doron, Sunil S. Bhar, Maja Nedeljkovic, Mario Mikulincer, 2016-03-10 This must have reference is a unique exploration of how the individual notion of self and related constructs such as early schemas and attachment styles impact on psychopathology psychotherapy processes and treatment outcomes for psychological disorders across DSM 5 such as depression bipolar and schizophrenia spectrum disorders anxiety and trauma eating disorders obsessive compulsive and related disorders autism personality disorders gender identity disorder dementia and somatic problems such as chronic fatigue syndrome It discusses the role of the concept of self in a wide range of existing theoretical and treatment frameworks and relates these to real life clinical issues and treatment implications Emphasizing the importance of integrating an awareness of self constructs into evidence based conceptual models it offers alternative practical intervention techniques suggesting a new way forward in advancing our understanding of psychological disorders and their treatment
