part details Bella's marriage and honeymoon with Edward which they spend on a private island that Carlisle bought and gave to Esme. Esme is off the coast of Brazil. Two weeks into their honeymoon, Bella realizes that she is pregnant with a half vampire half human child and that her condition is progressing at an unnaturally accelerated rate. After contacting Carlisle who confirms her pregnancy, she and Edward immediately return home to Forks, Washington, where the fetus continues to develop at an unnatural speed. The second part of the book is written from the perspective of Jacob Black, a werewolf who had also fallen in love with Bella. A month after the wedding, Bella calls her dad, Charlie Swan, and says that she is sick and quarantined. Charlie relays this to Billy Black, Jacob's dad, and Billy relays it to the pack. Jacob thinks that Bella is actually a vampire now and attempts to lead an assault on the Cullens for breaking the treaty. Sam, the alpha of the pack, forbids an assault on the Cullens without seeing Bella's immortality for himself. Jacob heads off on his own to avenge Bella. When he arrives, he discovers that Bella was sick, but it was from her pregnancy, not a disease. Jacob begs Bella to abort the fetus and save her life, but Bella is determined that she will live long enough to have the baby and be transformed into a vampire. Jacob runs off and phases due to his anger. This accidentally reveals Bella's condition to the pack, and due to the lack of knowledge on human vampire babies, the pack decides to kill the baby, and Bella immediately. Jacob objects, and when Sam uses an alpha command to force Jacob into submission, Jacob accepts his bloodline as the true heir of the pack and breaks free of Sam's control. He then runs off to warn the Cullens of the pack's planned assault. However, while en route, Seth, one of the younger pack members, joins Jacob and makes note of the fact that neither of them can hear the others; they have formed their own pack. They warn the Cullens and take up patrol around the Cullens' property. Leah, Seth's older sister, joins them shortly afterward. After a chance remark by Jacob, they discover that the baby simply craves blood, and Bella has to drink it out of a cup for the greatest effectiveness. Bella gets better, but the fetus in Bella's body grows swiftly, and the timing of birth is unknown due to the lack of any related medical knowledge on human vampire births. Carlisle, the experienced doctor, is out of the house to replenish blood supplies from a hospital blood bank when Bella falls, detaching the placenta and inducing labor. The baby breaks many of her bones, including her spine, and she loses massive amounts of blood. In order to save her life, Edward changes her into a vampire by injecting his venom into her heart. Jacob, thinking that Bella is dead and blaming Bella's daughter, Renesmee, as the cause, tries to kill Renesmee. Instead, he imprints an involuntary response in which a shape shifter finds his soul mate on her.
