have the opportunity to interact directly or indirectly in a wide variety of contexts Despite differences in their ways of
thinking and reasoning their behaviors their values lifestyles customs and habits languages religions in a word their cultures
they must be able to collaborate on projects to understand each other s views to communicate in such a way that they don t
offend each other to anticipate the effects of their actions on others and so on As such it is of primary importance to
understand how culture affects people s mental activities such as perception interpretation reasoning emotion and behavior
