Brice Marden Graphite Drawings:

Brice Marden Brice Marden, Paul Galvez, Matthew Marks Gallery, 2013 Graphite Drawings includes 25 of Brice Marden's seminal early works on paper and accompanies the first exhibition devoted solely to this body of work. The drawings made between 1962 and 1981 feature luxurious surfaces of graphite and beeswax worked into dense reflective planes of blacks, whites, and grays. Within these surfaces, Marden reveals the underlying geometries of the rectangle and the grid, a formal strategy that has characterized his work from the 1960s to the present. Art historian Richard Schiff has written of these works: "Marden's black reveals its qualities only to those who look and can see its changes. Each area of blackness has its history, its experiential specificity." Accompanying the illustrations are an essay by Paul Galvez, a 1976 interview with the artist by Ed Howard, published here for the first time, and extensive documentation on each work featured in the exhibition.

Lee, Whitney Museum of American Art, 1998 This elegant book accompanies an exhibition of the Whitney Museum of American Art's collection of 52 Brice Marden drawings, the largest in the world, and offers the most thorough examination of the drawings to date. Janie C. Lee surveys Marden's remarkable graphic achievements and her revealing interview with the artist explores his interplay of technique and subject matter, sources of inspiration, and the role drawings play in his oeuvre. The 70 works selected by the famously reclusive artist provide a unique insight into his collected oeuvre. Marden's dedication to paint as a medium marks him as a singular figure in contemporary art; his remarkable and intrinsic use of colour makes him a pioneer among artists who seek other mediums to express themselves. His belief in the use of paint in the modern era has made him a major figure in the American minimalist art movement, with retrospectives in New York, Paris, and London. His work is recognised in permanent collections worldwide.
