Beyond Writing Culture Current Intersections Of Epistemologies And Representational Practices:

Beyond Writing Culture Olaf Zenker, Karsten Kumoll, 2010-05-01 Two decades after the publication of Clifford and Marcus volume *Writing Culture* this collection provides a fresh and diverse reassessment of the debates that this pioneering volume unleashed At the same time *Beyond Writing Culture* moves the debate on by embracing the more fundamental challenge as to how to conceptualise the intricate relationship between epistemology and representational practices rather than maintaining the original narrow focus on textual analysis It thus offers a thought provoking tapestry of new ideas relevant for scholars not only concerned with the ethnographic Other but with representation in general **Beyond Writing Culture**

Karsten Kumoll, 2010 This is a book that will attract a great deal of attention among anthropologists and social scientists in general It is a great advance on earlier critiques of *Writing Culture* 1986 that have emerged at intervals a large number of them cited by the contributors Its strength lies particularly in its transdisciplinary perspectives and the clarity of both critique and new representations The prologue is a tour de force Joan Vincent Professor Emerita Barnard College Columbia University

Children as Social Butterflies Ursina Jaeger, 2024-11-15 *Children as Social Butterflies* offers an analysis of how children negotiate social belonging Ursina Jaeger followed the children of a kindergarten class in a stigmatized and diverse neighborhood for several years both inside and outside of school Along with giving vivid insights into the children's everyday lives she examines how social differentiation is learned in diverse societies **Fieldwork in Educational**

Settings Sara Delamont, 2016-03-02 *Fieldwork in Educational Settings* is widely recognised as part of the essential reading for the researcher in education It instructs those new to qualitative educational research how to find interesting research sites collect great data analyse them responsibly and then find the right audience to hear use and build upon their findings successfully The revised and updated third edition includes the latest developments in autoethnography data collection analysis and dissemination and is illustrated throughout with up to the minute examples of real world research It embraces both sociological and anthropological approaches to qualitative educational research using case studies from the USA Canada Australia and New Zealand as well as the UK Education is treated broadly including higher education and non formal settings as well as schools Threaded throughout the book is updated content on the internet and virtual worlds as sites for ethnography the ethical aspects of ethnographic research the strengths and weaknesses of autoethnography the debates about representing data the impact of technological innovations in all stages of qualitative research An indispensable introduction for students and novice researchers alike the new edition continues to illustrate and sustain the increasing popularity of qualitative methods in educational research over the past thirty years addressing the technological and digital changes that have occurred Beyond Expropriation Without Compensation Olaf Zenker, Cherryl Walker, Zsa-Zsa

Boggenpoel, 2024-04-04 Speeding up land reform through a constitutional amendment that would explicitly permit the expropriation of land without compensation has dominated legal and political policy debates in South Africa in recent years

Taking this politically and emotionally charged issue as its starting point this volume offers both expert commentary on this issue from a variety of disciplinary perspectives and also fresh ideas on how to advance the redistributive transformation that South Africa so urgently needs It brings critically important debates around transformative property law the need for diversified land justice and the possibilities of alternative forms of redistribution into productive conversation with each other While grounded in the complex realities of South Africa's past and present the volume speaks to concerns that resonate in many contexts in the Global South and beyond It will appeal to scholars students policymakers and general readers concerned with both the theory and practice of redistributive justice This title is also available as Open Access on Cambridge Core

Cultural Turns Doris Bachmann-Medick, 2016-01-15 The contemporary fields of the study of culture the humanities and the social sciences are unfolding in a dynamic constellation of cultural turns This book provides a comprehensive overview of these theoretically and methodologically groundbreaking reorientations It discusses the value of the new focuses and their analytical categories for the work of a wide range of disciplines In addition to chapters on the interpretive performative reflexive postcolonial translational spatial and iconic turns it discusses emerging directions of research Drawing on a wealth of international research this book maps central topics and approaches in the study of culture and thus provides systematic impetus for changed disciplinary and transdisciplinary research in the humanities and beyond e.g. in the fields of sociology economics and the study of religion This work is the English translation by Adam Blauhut of an influential German book that has now been completely revised It is a stimulating example of a cross cultural translation between different theoretical cultures and also the first critical synthesis of cultural turns in the English speaking world

Letters Without Capitals: Text and Practice in Kim Mun (Yao) Culture Jacob Cawthorne, 2020-12-29 Letters without Capitals Texts and Practices in Kim Mun Yao Culture examines the writing culture of Kim Mun communities in Southeast Asia and China The Kim Mun who belong to the Yao ethnic group are renowned for their Daoist religious practices and religious texts written in Chinese script This work takes an unpublished Kim Mun letter that was composed in Laos and sent to Vietnam as its centrepiece Through an analysis of the letter one which uses ethnographic accounts of Kim Mun communities and studies of Kim Mun literary and religious texts it demonstrates that writing is a cultural technology that primarily serves the purposes of the Kim Mun themselves rather than being an artefact of historical and cultural relationships of dependency on external state institutions or religious constituencies This has broad implications regarding our understanding of how writing can be adapted and deployed by minority communities on and beyond the margins of the state and of the underlying relationships between writing identity and power

Anthropology's Philosophy Nigel Rapport, 2025-07-04 This book focuses on anthropology's ambition for comprehensiveness and its interdisciplinary nature It consists of concise essays each around 2 500 words in which contributors examine how concepts traditionally linked to philosophy or other disciplines are interpreted and applied within anthropology Each contributor selects a personally inspiring concept and illustrates its relevance to

anthropology showcasing how it takes on new meaning within an anthropological framework These essays vary in style and content allowing contributors to discuss the history of the concept s usage provide an ethnographic illustration of the concept or offer an analytical comparative or theoretical exposition of the concept as deployed anthropologically A common theme across all entries is the exploration of anthropological disciplinarity or anti disciplinarity highlighting its intellectual flexibility and genre blurring practices in an effort to approach that expansiveness necessary to do justice to the complexity of human existence

The Composition of Anthropology Morten Nielsen, Nigel Rapport, 2017-12-14 How do anthropologists write their texts What is the nature of creativity in the discipline of anthropology This book follows anthropologists into spaces where words ideas and arguments take shape and explores the steps in a creative process In a unique examination of how texts come to be composed the editors bring together a distinguished group of anthropologists who offer valuable insight into their writing habits These reflexive glimpses into personal creativity reveal not only the processes by which theory and ethnography come in particular cases to be represented on the page but also supply examples that students may follow or adapt

Writing in the Field Ivo Strecker, Shauna LaTosky, 2013 This festschrift is situated within the contexts of the Writing Culture debate the Rhetoric Culture project and the legacy of anthropologist Stephen Tyler s work on language and representation While *Writing Culture* 1986 alerted readers to the power of ethnographers over their field *Writing in the Field* alerts readers to the power of the field over its ethnographers Rather than reprise familiar debates about writing and representation the book s individual chapters elucidate how anthropological fieldwork is a highly fraught provisional and incomplete practice enmeshed in the gaps between self and the other The book s emphasis on the concepts of pathos epiphany and dissociation is developed through essays that are personal yet not merely subjective for they draw on and contribute to deep traditions of thinking about culture and rhetoric Series *Ethnologie Forschung und Wissenschaft* Vol 24 This fine collection of essays is a fitting tribute to the positive influence of Stephen Tyler an original and influential anthropologist of protean gifts E Douglas Lewis School of Social and Political Sciences U of Melbourne
