Speaking to Good Effect Douglas Gordon Lawrie, 2006-01-01 Speaking to Good Effect introduces students to the ancient and ubiquitous art of rhetoric Whenever we try to achieve something with words as our tools we become rhetoricians Whenever we respond positively or negatively to someone else's words we become rhetorical critics It is therefore not surprising that the art of rhetoric has been studied and taught for more than twenty four centuries **Decision Making in Educational Leadership** Stephanie Chitpin, Colin W. Evers, 2014-06-05 The increased focus on raising standards in education requires leaders to engage in complex decision making about teacher assessment mandated accountability measures and the collection and use of large amounts of data Showcasing exemplary practices of school and district administrators Decision Making in Educational Leadership covers issues concerning the role of emotion ethical and legal ramifications the use of data and complexity in decision making Chapter authors in this research based volume explore what administrators and school leaders actually know about educational problems how they draw upon and revise theories of action for responding to problems and which theories are tenable in educational decision making This important resource provides a broad and international perspective on effective models and methods of educational decision making and shares valuable knowledge about how theory can be translated into practice in a variety of school settings **Why Not the Best Schools?** Toni Saarivirta, 2008 Contains five case studies of successful schools in Finland and examines the reasons for their success This title also examines how these schools achieved transformation and success by developing and building strength in four kinds of capital intellectual social financial and spiritual and aligning them to their mission through governance
