Beyond Black And White Transforming African American Politics:

Beyond Black and White Manning Marable, 1995 A generation removed from the Civil Rights Movement and the Black Power explosion of the 1960s the pursuit of racial equality and social justice for African Americans seems more elusive than ever The realities of contemporary black America capture the nature of the crisis life expectancy for black males is now below retirement age median black income is less than 60 per cent that of whites over 600 000 African Americans are incarcerated in the US penal system 23 per cent of all black males between the ages of eighteen and 29 are either in jail on probation or parole or awaiting trial At the same time affirmative action programs and civil rights reforms are being challenged by white conservatism Confronted with a renascent right and the continuing burden of grotesque inequality Manning Marable argues that the black struggle must move beyond previous strategies for social change The politics of black nationalism which advocates the building of separate black institutions is an insufficient response The politics of integration characterized by traditional middle class organizations like the NAACP and Urban League seeks only representation without genuine power Instead a transformationist approach is required one that can embrace the unique cultural identity of African Americans while restructuring power and privilege in American society Only a strategy of radical democracy can ultimately deconstruct race as a social force **Beyond Black and White** brilliantly dissects the politics of race and class in the US of the 1990s Topics include the Clarence Thomas Anita Hill controversy the factors behind the rise and fall of Jesse Jackson s Rainbow Coalition Benjamin Chavis and the conflicts within the NAACP and the national debate over affirmative action Marable outlines the current debates in the black community between liberals Afrocentrists and the advocates of social transformation He advances a political vision capable of drawing together minorities into a majority which can throw open the portals of power and govern in its own name

African American community in the 1980s and early 1990s *Rewriting Exodus* Anna Hartnell, 2011-05-06 Exodus as a powerful narrative of liberation has been a central imaginative touchstone in the black American struggle against US racism. This book traces the concept in a number of pivotal black thinkers and explores its significance for contemporary America. The exodus story is a fitting allegory for the painful experience of exile that disproportionately afflicted African Americans in the aftermath of Hurricane Katrina and it also provides compelling imagery for the triumphant election of Barack Obama in 2008. Building around these themes Anna Hartnell traces the intellectual development of one of the defining narratives of black American thinking on social justice in the United States. In placing black America at the centre of the study of US culture *Rewriting Exodus* suggests new ways of thinking about America's relationship with the Middle East and the wider postcolonial world. Hartnell's groundbreaking contribution marks a vital new chapter in American cultural and political history.

The South in Black and White McKay Jenkins, 2005-10-12 If the nation as a whole during the 1940s was halfway between the Great Depression of the 1930s and the postwar prosperity of the 1950s the South found itself struggling through an additional transition one bound up in an often violent reworking of its own sense of history and regional identity. Examining the changing nature of racial politics in the 1940s McKay Jenkins measures its impact on white Southern literature, history and culture. Jenkins focuses on four white Southern writers: W. J. Cash, William Alexander Percy, Lillian Smith and Carson McCullers to show how they constructed images of race and race relations within works that professed to have little if anything to do with race. Sexual isolation further complicated these authors' struggles with issues of identity and repression he argues, allowing them to occupy a space between the privilege of whiteness and the alienation of blackness. Although their views on race varied tremendously these Southern writers' uneasy relationship with their own dominant racial group belies the idea that whiteness was an unchallenged monolithic racial identity in the region.

Blacks in the Jewish Mind Seth Forman, 1998-07 Since the 1960s a period which saw a flourishing of Black Jewish alliances the relationship between Blacks and Jews has been a contentious one. While others have attempted to explain or repair the schism Seth Forman here sets out to determine what Jewish thinking on the subject of Black Americans reveals about Jewish identity in the United States. Why did American Jews get involved in Black causes in the first place? What did they have to gain from it? And what does that tell us about American Jews? *Blacks in the Jewish Mind* is the first study on race relations to examine the unusual efforts of one white group to attach itself to the enormity of the Black experience, sometimes to its own cultural detriment.
