Leaders today understand that too much ego can be destructive and can have broad ranging consequences for a team or a company When a leader is operating purely from ego instead of focusing on what's best for the team or the company the focus is often turned to what best satisfies their own personal agenda Although most of us are aware of the damaging impacts that these patterns can have many of us lack the knowledge or awareness to identify our own ego patterns or the strategies to move beyond them This book offers a highly practical and experiential path towards identifying ego patterns and leading beyond them It introduces a unique path the Inner Compass that has been tried and tested with top level executives and senior teams around the world This path helps solve the conflict that exists between subconscious ego driven defence mechanisms and the inner self's higher purpose It's a path that starts with self awareness and then continuously expands to include the impact on both teams and entire organizations It is a path that raises awareness and enables the reader to embrace conscious leadership not just as a concept but in every interaction in their leadership role In addition to being a book about leadership development BEYOND EGO takes the reader on a journey of personal growth and self actualization It provides the reader with a self help guide to personal development leading them towards their own inner compass Along that path it suggests using mindfulness meditation and yoga exercises to develop the holistic awareness needed to stay present to our own compass Highly relevant to readers coming from the areas of leadership management team leadership and HR BEYOND EGO supports the development of a servant leadership career forming the foundation of a sustainable ESG business culture built on conscious leadership What people are saying about the book Thought provoking and life changing in many ways Beyond Ego is a must read for all aspiring leaders Mark Siva Senior Vice President at Miele Leadership has become one of the most mystified and crowded topics Beyond ego is THE Guide for every leader to go straight to the core of leadership what matters most and can be most painful you Understanding who you are and how you connect this to the purpose of your business is key to be an authentic leader today and every day Marc Makowski VP Innovation Portfolio at Adidas Changing the world begins by transforming our inner world When we drop from our heads to our hearts and figure out what we really care about we can craft our life compass Thor provides you with effective guidance for that life long journey Halla Tomasdottir CEO of the B Team [Transcendent Leadership and the Evolution of Consciousness](#) Lisa Aldon, 2005-03-03 Is there a process to provide the opportunity for people to connect in the essence of spiritual humanism to undertake great and difficult tasks provide holistic contexts from which we can create our future

together and cause us to take charge of our own evolution as we transcend Could this be the true nature of leadership The purpose of this book is to suggest that leadership theories are inadequate unless they include transcendence as an essential element influencing human behavior It is believed that if transcendence is included in leadership theories an ebb and flow relationship will exist providing opportunities where introspection and reflection of one's role can cause individual transcendence to a higher level of consciousness while at the same time causing transforming change in the individual and the organization This book examines theories of the evolution of consciousness as the context for understanding transcendence Utilizing the elements of transcendence and consciousness as a foundation these concepts could help further not only the study but the practice of leadership as well

Evolve Graeme Findlay, 2018-10-12 Leaders work hard to develop strong leadership capabilities in today's modern organizations for the benefit of their teams and for their own careers But sometimes conventional leadership theory fails to explain why our efforts fail to make an impact and arguably are becoming less and less successful Why would this be The answer lies in our evolutionary history Leadership is integral to our success and evolution as a species as larger better functioning groups out survived fragmented groups that did not benefit from strong leadership Leader follower relationships

are therefore deeply ingrained in our brains our instincts and our behaviour But our modern world with its technology connectedness and complexity has evolved much faster than our brains and our leader follower behaviour has not caught up Evolve charts the fascinating development of our evolutionary history to provide a profound understanding of human behaviour around leadership It also establishes a framework for the modes of leadership that shape the world today Through case studies and real world examples you will gain powerful insights into the nature of leadership now More importantly these insights inform the actions you can take in your own life to enable you to become a more aware mindful impactful and successful leader
