Stephanie J. Waterman, Shelly C. Lowe, Heather J. Shotton, 2023-07-03 This book argues that two principal factors are inhibiting Native students from transitioning from school to college and from succeeding in their post secondary studies It presents models and examples of pathways to success that align with Native American students aspirations and cultural values Many attend schools that are poorly resourced where they are often discouraged from aspiring to college Many are alienated from the educational system by a lack of culturally appropriate and meaningful environment or support systems that reflect Indigenous values of community sharing honoring extended family giving back to one s community and respect for creation The contributors to this book highlight Indigenized college access programs meaning programs developed by not just for the Indigenous community and are adapted or developed for the unique Indigenous populations they serve Individual chapters cover a K 12 program to develop a Native college going culture through community engagement a crash course offered by a higher education institution to compensate for the lack of college counseling and academic advising at students schools the role of tribal colleges and universities the recruitment and retention of Native American students in STEM and nursing programs financial aid educational leadership programs to prepare Native principals superintendents and other school leaders and finally data regarding Native American college students with disabilities The chapters are interspersed with narratives from current Indigenous graduate students This is an invaluable resource for student affairs practitioners and higher education administrators wanting to understand and serve their Indigenous students **The Routledge Handbook**

Reclaiming Indigenous Research in Higher Education Robin Zape-tah-hol-ah Minthorn,Heather J. Shotton,2018-02-27 Indigenous students remain one of the least represented populations in higher education They continue to account for only one percent of the total post secondary student population and this lack of representation is felt in multiple ways beyond enrollment Less research money is spent studying Indigenous students and their interests are often left out of projects that otherwise purport to address diversity in higher education Recently Native scholars have started to reclaim research through the development of their own research methodologies and paradigms that are based in tribal knowledge systems and values and that allow inherent Indigenous knowledge and lived experiences to strengthen the research Reclaiming Indigenous Research in Higher Education highlights the current scholarship emerging from these scholars of higher education From understanding how Native American students make their way through school to tracking tribal college and university transfer students this book allows Native scholars to take center stage and shines the light squarely on those least represented among us
