Becoming Batman E. Paul Zehr, 2008-11-28 Battling bad guys High tech hideouts The gratitude of the masses Who at some point in their life hasn't dreamed of being a superhero Impossible right Or is it Possessing no supernatural powers Batman is the most realistic of all the superheroes His feats are achieved through rigorous training and mental discipline and with the aid of fantastic gadgets Drawing on his training as a neuroscientist kinesiologist and martial artist E Paul Zehr explores the question Could a mortal ever become Batman Zehr discusses the physical training necessary to maintain bad guy fighting readiness while relating the science underlying this process from strength conditioning to the cognitive changes a person would endure in undertaking such a regimen In probing what a real life Batman could achieve Zehr considers the level of punishment a consummately fit and trained person could handle how hard and fast such a person could punch and kick and the number of adversaries that individual could dispatch He also tells us what it would be like to fight while wearing a batsuit and the amount of food we'd need to consume each day to maintain vigilance as Gotham City's guardian A fun foray of escapism grounded in sound science **Becoming Batman** provides the background for attaining the realizable though extreme level of human performance that would allow you to be a superhero

Inventing Iron Man E. Paul Zehr, 2011-10-01 Tony Stark has been battling bad guys and protecting innocent civilians since he first donned his mechanized armor in the 1963 debut of Iron Man in Marvel Comics Over the years Stark's suit has allowed him to smash through walls fly through the air like a human jet control a bewildering array of weaponry by thought alone and perform an uncountable number of other fantastic feats The man who showed us all what it would take to become Batman probes whether science and humankind is up to the task of inventing a real life Iron Man E Paul Zehr physically deconstructs Iron Man to find out how we could use modern day technology to create a suit of armor similar to the one Stark made Applying scientific principles and an incredibly creative mind to the question Zehr looks at how Iron Man's suit allows Stark to become a superhero He discusses the mind boggling and body straining feats Iron Man performed to defeat villains like Crimson Dynamo Iron Monger and Whiplash and how such acts would play out in the real world Zehr finds that science is nearing the point where a suit like Iron Man's could be made But superherodom is not just about technology Zehr also discusses our own physical limitations and asks whether an extremely well conditioned person could use Iron Man's armor and do what he does A scientifically sound look at brain machine interfaces and the outer limits where neuroscience and neural plasticity meet **Inventing Iron Man** is a fun comparison between comic book science fiction and modern science If you've ever wondered whether you have what it takes to be the ultimate human machine hero then this book is for you [I, Superhero!!](#) : Mike McMullen, 2010-11-01 Evildoers Take Heed Justice has a new face and it wears a mask Who are we talking about Ordinary folk like Mike McMullen aka The Amazing Whitebread who become something entirely new and occasionally borderline pathological Real Life Superheroes RLSHs Being a singing superheroine is a way for me to not only pay the bills it also helps
