Becoming Japanese Colonial Taiwan And The Politics Of Identity Formation:

Becoming "Japanese" Leo T. S. Ching, 2001-06-30 This book examines political and cultural identity formations in Taiwan during Japanese domination from the early 1920s to the end of Japanese rule in 1945 *Becoming Japanese* Leo T. S. Ching, 2001-06-30 In 1895 Japan acquired Taiwan as its first formal colony after a resounding victory in the Sino Japanese war For the next fifty years Japanese rule devastated and transformed the entire socioeconomic and political fabric of Taiwanese society In *Becoming Japanese* Leo Ching examines the formation of Taiwanese political and cultural identities under the dominant Japanese colonial discourse of assimilation and imperialization from the early 1920s to the end of the Japanese Empire in 1945 *Becoming Japanese* analyzes the ways in which the Taiwanese struggled negotiated and collaborated with Japanese colonialism during the cultural practices of assimilation and imperialization It chronicles a historiography of colonial identity formations that delineates the shift from a collective and heterogeneous political horizon into a personal and inner struggle of becoming Japanese Representing Japanese colonialism in Taiwan as a topography of multiple associations and identifications made possible through the triangulation of imperialist Japan nationalist China and colonial Taiwan Ching demonstrates the irreducible tension and contradiction inherent in the formations and transformations of colonial identities Throughout the colonial period Taiwanese elites imagined and constructed China as a discursive space where various forms of cultural identification and national affiliation were projected Successfully bridging history and literary studies this bold and imaginative book rethinks the history of Japanese rule in Taiwan by radically expanding its approach to colonial discourses **Taiwan Under Japanese Colonial Rule, 1895-1945** Ping-hui Liao, David Der-wei Wang, 2006-11-07 The first study of colonial Taiwan in English this volume brings together seventeen essays by leading scholars to construct a comprehensive cultural history of Taiwan under Japanese rule Contributors from the United States Japan and Taiwan explore a number of topics through a variety of theoretical comparative and postcolonial perspectives painting a complex and nuanced portrait of a pivotal time in the formation of Taiwanese national identity Essays are grouped into four categories rethinking colonialism and modernity colonial policy and cultural change visual culture and literary expressions and from colonial rule to postcolonial independence Their unique analysis considers all elements of the Taiwanese colonial experience concentrating on land surveys and the census transcolonial coordination the education and recruitment of the cultural elite the evolution of print culture and national literature the effects of subjugation coercion discrimination and governmentality and the root causes of the ethnic violence that dominated the postcolonial era The contributors encourage readers to rethink issues concerning history and ethnicity cultural hegemony and resistance tradition and modernity and the romancing of racial identity Their examination not only provides a singular understanding of Taiwan's colonial past but also offers insight into Taiwan's relationship with China Japan and the United States today Focusing on a crucial period in which the culture and language of Taiwan China and Japan became inextricably linked *Taiwan Under*

Japanese Colonial Rule effectively broadens the critique of colonialism and modernity in East Asia **Language Choice and Identity Politics in Taiwan** Jennifer M. Wei, 2008-04-18 Jennifer M Wei argues that construction and perceptions of language and identity parallel sociopolitical transformations and language and identity crises arise during power transitions Under these premises language and identity are never well defined or well bounded Instead they are best viewed as political symbols subject to manipulation and exploitation during socio historical upheavals A choice of language from phonological shibboleth Mandarin or Taiwanese to choice of official language cuts to the heart of contested cultural notions of self and other with profound implications for nationalism national unity and ethno linguistic purism Wei further argues that because of the Chinese Diaspora and Taiwan s connections to China and the United States arguments and sentiments over language choice and identity have consequences for Taiwan s international and transnational status They are symbolic acts of imagining Taiwan s past as she looks forward to the future **Social Class and Education** Lois Weis, Nadine Dolby, 2012-04-27 Social Class and Education Global Perspectives is the first empirically grounded volume to explore the intersections of class social structure opportunity and education on a truly global scale Fifteen essays from contributors representing the US Europe China Latin America and other regions offer an unparralleled examination of how social class differences are made and experienced through schooling By underscoring the consequences of our new global reality this volume takes seriously the transnational migration of commerce capital and peoples and the ramifications of such for education and social structure Moving beyond national confines internationally recognized scholars Lois Weis and Nadine Dolby offer a set of emblematic essays that break new theoretical and empirical ground on the ways class is produced and maintained through education around the world **Italians in Africa and the Japanese in South East Asia** Nikolaos Mavropoulos, 2022-08-22 The comparison of early Italy s and Japan s colonialism is without precedence The majority of studies on Italian and Japanese expansion refer to the 1930 1940s period fascist totalitarian era when Japan annexed Manchuria 1931 and Italy Ethiopia 1936 The first formative and crucial steps that paved the way for this expansion have been neglected This analysis covers a range of social political and economic parameters illuminating the diversity but also the common ground of the nature and aspirations of Japan s and Italy s early colonial systems The two states alongside the Great Powers of the era expanded in the name of humanism and civilization but in reality in a way typically imperialistic they sought territorial compensations financial privileges and prestige A parallel and deeper understanding of the nineteenth century socio cultural psychological parameters such as tradition mentality and religion that shaped and explain the later ideological framework of Rome s and T ky s expansionist disposition has never been attempted before This monograph offers a detailed examination of the phenomenon of colonialism by examining the issue from two different angles The study contributes to the understanding of Italy s and Japan s early imperial expansion In addition it traces the origins of these states similar and common historical evolution in late nineteenth and the first half of the twentieth century **Assessing**

the Landscape of Taiwan and Korean Studies in Comparison, 2021-04-19 In Assessing the Landscape of Taiwan and Korean Studies in Comparison the chapters offer a reflection on the state of the field of Taiwan and Korea Studies For the editors the volume s purpose was to identify not just their similarities but also a reflection on their differences Both have national identities formed in a colonial period The surrender of Japan in 1945 ignited the light of independence for Korea but this would be ideologically split within five years For Taiwan that end forced it into a born again form of nationalism with the arrival of the Chinese Nationalists Taiwan and South Korea s economic development illustrate a progressive transition and key to understanding this is the relationship between modernization and democracy By looking at Korea and Taiwan the chapters in the volume broaden an understanding of the interconnectivity of the region From Honto Jin to Bensheng Ren Shih-jung Tzeng, 2009-05-16 This book attempts to use numerous volumes of mostly unpublished diaries for examining issues of Taiwanese identity Using the diaries of two Taiwanese intellectuals the author examines how the Taiwanese national consciousness emerged and was reconstructed under the Japanese and Chinese Nationalist rule between 1920 and 1955 suggesting that a multi dimensional Taiwanese national consciousness was created in the 1920s Nevertheless between 1937 and 1945 it was reconstructed by the imperial war mobilization It then underwent a further reconstruction during and after the regime change from Japan to China leading to the emergence of the bensheng ren native Taiwanese consciousness The emerging international Cold War environment enabled the creation of a de facto independent state based on Taiwan size governance which had an impact on shaping the bensheng ren identity *Taiwan Studies Revisited* Dafydd Fell, Hsin-Huang Michael Hsiao, 2019-08-28 This book examines and reviews some of the key figures in Taiwan Studies to plot the development of the field by revisiting their earlier influential books and bodies of work Often autobiographical in detail each chapter asks the author to discuss the origins of their research and how their engagement with the field has developed since The contributors then discuss their methodologies fieldwork and arguments as well as how their work was received at the time They also go on to reflect on their chosen methods and core findings assessing whether they have stood the test of time Reflecting the diversity of the Taiwan Studies field subjects covered in this volume include sociology musicology linguistics comparative politics international relations and anthropology As such this comprehensive overview adopts a distinctly interdisciplinary approach to understanding Taiwan Painting a picture of the changing state of international Taiwan Studies through the work of leading scholars this book will be invaluable to students and scholars of Taiwan Studies Chinese Studies and Asian politics culture and society *The Landscape of Historical Memory* Kirk A. Denton, 2021-03-01 The Landscape of Historical Memory explores the place of museums and memorial culture in the contestation over historical memory in post martial law Taiwan The book is particularly oriented toward the role of politics especially political parties in the establishment administration architectural design and historical narratives of museums It is framed around the wrangling between the blue camp the Nationalist Party or KMT and its supporters and the green camp Democratic Progressive Party or

DPP and its supporters over what facets of the past should be remembered and how they should be displayed in museums. Organized into chapters focused on particular types of museums and memorial spaces such as archaeology museums, history museums, martyrs shrines, war museums, memorial halls, literature museums, ethnology museums, and ecomuseums, the book presents a broad overview of the state of museums in Taiwan in the past three decades. The case of Taiwan museums tells us much about Cold War politics and its legacy in East Asia, the role of culture, history, and memory in shaping identities in the postcolonial landscape of Taiwan, the politics of historical memory in an emergent democracy, especially in counterpoint to the politics of museums in the People's Republic of China, which continues to be an authoritarian single party state, and the place of museums in a neoliberal economic climate. This book offers unique insight into the configurations of international museum culture as manifested in the sociopolitical landscape of post martial law Taiwan. Using case studies filled with telling details, Denton analyzes how museums both reflect and initiate cultural change. This work adds substantially to Taiwan studies and museology with in depth scholarship and innovative observations presented in a clear and compelling narrative.

Joseph R. Allen, University of Minnesota, Twin Cities: This is a fascinating and meticulously researched survey of Taiwan's museums. Denton has produced a book that is both scholarly and highly readable. It will appeal to a wide readership encompassing social scientists specializing in Taiwan, students of Chinese or East Asian studies, observers of Taiwanese politics, and the local cultural scene, and others.
