**Jacqueline Olds, MD, Richard S.
Schwartz, MD**

Becoming Us College London Lovers:

American Edition of the British Encyclopedia William Nicholson, 1819 *Catalogue of English and American Chapbooks and Broadside Ballads in Harvard College Library* Harvard University. Library, 1905 *The Lonely American* Jacqueline Olds, MD, Richard S. Schwartz, MD, 2010-02-01

In today's world it is more acceptable to be depressed than to be lonely yet loneliness appears to be the inevitable byproduct of our frenetic contemporary lifestyle. According to the 2004 General Social Survey, one out of four Americans talked to no one about something of importance to them during the last six months. Another remarkable fact emerged from the 2000 U.S. Census: more people are living alone today than at any point in the country's history: fully 25 percent of households consist of one person only. In this crucial look at one of America's few remaining taboo subjects, loneliness, Drs. Jacqueline Olds and Richard S. Schwartz set out to understand the cultural imperatives, psychological dynamics, and physical mechanisms underlying social isolation. In *The Lonely American*, cutting edge research on the physiological and cognitive effects of social exclusion and emerging work in the neurobiology of attachment uncover startling, sobering ripple effects of loneliness in areas as varied as physical health, children's emotional problems, substance abuse, and even global warming. Surprising new studies tell a grim truth about social isolation: being disconnected diminishes happiness, health, and longevity; increases aggression; and correlates with increasing rates of violent crime. Loneliness doesn't apply simply to single people: either today's busy parents cocoon themselves by devoting most of their non-work hours to children, leaving little time for friends and other forms of social contact, and unhealthily relying on the marriage to fulfill all social needs. As a core population of socially isolated individuals and families continues to balloon in size, it is more important than ever to understand the effects of a culture that idealizes busyness and self-reliance. It's time to bring loneliness, a very real and little-discussed social epidemic with frightening consequences, out into the open and find a way to navigate the tension between freedom and connection in our lives.

Why We Love Helen Fisher, 2005-01-02

A groundbreaking exploration of our most complex and mysterious emotion. Elation, mood swings, sleeplessness, and obsession: these are the tell-tale signs of someone in the throes of romantic passion. In this revealing new book, renowned anthropologist Helen Fisher explains why this experience, which cuts across time, geography, and gender, is as powerful as the need for food or sleep. *Why We Love* begins by presenting the results of a scientific study in which Fisher scanned the brains of people who had just fallen madly in love. She proves at last what researchers had only suspected: when you fall in love, primordial areas of the brain light up with increased blood flow, creating romantic passion. Fisher uses this new research to show exactly what you experience when you fall in love: why you choose one person rather than another, and how romantic love affects your sex drive and your feelings of attachment to a partner. She argues that all animals feel romantic attraction; that love at first sight comes out of nature; and that human romance evolved for crucial reasons of survival. Lastly, she offers concrete suggestions on how to control this ancient passion, and she optimistically explores the future of romantic love in our chaotic modern world.

Provocative enlightening and persuasive Why We Love offers radical new answers to the age old question of what love is and thus provides invaluable new insights into keeping love alive **The Book Lover** ,1888 The London Journal ,1860 A Critical Dictionary of English Literature and British and American Authors Samuel Austin Allibone,1899 **A Critical Dictionary of English Literature and British and American Authors Living and Deceased from the Earliest Accounts to the Latter Half of the Nineteenth Century by S.
