Brocke, Michael Rosemann, 2010-09-22 Business Process Management BPM has become one of the most widely used approaches for the design of modern organizational and information systems The conscious treatment of business processes as significant corporate assets has facilitated substantial improvements in organizational performance but is also used to ensure the conformance of corporate activities This Handbook presents in two volumes the contemporary body of knowledge as articulated by the world's leading BPM thought leaders This second volume focuses on the managerial and organizational challenges of Business Process Management such as strategic and cultural alignment governance and the education of BPM stakeholders As such this book provides concepts and methodologies for the integration of BPM Each chapter has been contributed by leading international experts Selected case studies complement their views and lead to a summary of BPM expertise that is unique in its coverage of the most critical success factors of BPM **Collaborative Systems for Smart**

Networked Environments Luis M. Camarinha-Matos, Hamideh Afsarmanesh, 2014-10-01 This book constitutes the refereed proceedings of the 15th IFIP WG 5.5 Working Conference on Virtual Enterprises PRO-VE 2014 held in Amsterdam The Netherlands in October 2014. The 73 revised papers were carefully selected from 190 submissions. They provide a comprehensive overview of identified challenges and recent advances in various collaborative network (CN) domains and their applications with a particular focus on the following areas in support of smart networked environments: behavior and coordination, product service systems, service orientation in collaborative networks, engineering and implementation of collaborative networks, cyber physical systems, business strategies, alignment, innovation networks, sustainability and trust, reference and conceptual models, collaboration platforms, virtual reality and simulation, interoperability and integration, performance management, frameworks, performance management systems, risk analysis, optimization in collaborative networks, knowledge management in networks, health and care networks, and mobility and logistics. **On the Move to Meaningful Internet Systems: OTM 2011** Robert Meersman, Tharam Dillon, Pilar Herrero, Akhil Kumar, Manfred Reichert, Li Qing, Beng Chin Ooi, Ernesto Damiani, Douglas C. Schmidt, Jules White, Manfred Hauswirth, Pascal Hitzler, Mukesh K. Mohania, 2011-11-09 The two volume set LNCS 7044 and 7045 constitutes the refereed proceedings of three confederated international conferences: Cooperative Information Systems CoopIS 2011, Distributed Objects and Applications Secure Virtual Infrastructures DOA SVI 2011, and Ontologies, DataBases and Applications of SEmantics ODBASE 2011, held as part of OTM 2011 in October 2011 in Hersonissos on the island of Crete, Greece. The 55 revised full papers presented were carefully reviewed and selected from a total of 141 submissions. The 27 papers included in the first volume constitute the proceedings of CoopIS 2011 and are organized in topical sections on business process repositories, business process compliance and risk management, service orchestration and workflows, intelligent information systems and distributed agent systems, emerging trends in business process support techniques for building cooperative information systems, security and privacy in collaborative applications, and data and information management. *Information Systems Engineering in Complex Environments* Selmin Nurcan, Elias Pimenidis, 2015-05-27 This book constitutes the proceedings of the CAiSE Forum from the 26th International Conference on Advanced Information Systems Engineering CAiSE 2014 held in Thessaloniki, Greece, June 2014. The CAiSE 2014 Forum was a place to present and discuss new ideas, emerging topics and controversial positions and to demonstrate innovative tools and systems related to information systems engineering. To this end, three types of submissions were invited: visionary papers presenting innovative research projects at an early stage, demo papers describing novel tools and prototypes, and case studies reporting industrial applications. The 17 papers in this volume were carefully reviewed and selected from 45 submissions and include 12 visionary papers, four demo papers, and one case study. The reworked and extended versions of the original presentations cover topics such as business process management, process mining, enterprise architecture and modeling, model driven development, and requirements engineering. **Advances in**

Enterprise Engineering III Antonia Albani, Jan Dietz, 2009-06-04 In the era of continuous changes in internal organizational settings and external business environments such as new regulations and business opportunities modern enterprises are subject to extensive research and study For the understanding design and engineering of modern enterprises and their complex business processes the discipline of enterprise engineering requires sound engineering principles and systematic approaches based on rigorous theories Along with that a paradigm shift seems to be needed for addressing these issues adequately The main paradigm shift is the consideration of an enterprise and its business processes as a social system In its social setting an enterprise and its business processes represent actors with certain authorities and assigned roles who assume certain responsibilities in order to provide a service to its environment Second to that a paradigm shift is to look at an enterprise as an artifact purposefully designed for a certain mission and goal The need for this paradigm shift along with the complexity and agility of modern enterprises gives inspiration for the emerging discipline of enterprise engineering that requires development of new theories and methodologies To this end the prominent methods and tools of modeling and simulation play a significant role Both conceptual modeling and simulation are widely used for understanding analyzing and engineering an enterprise its organization and business processes Business Enterprise, Process, and Technology Management: Models and Applications Shankararaman, Venky, Zhao, J. Leon, Lee, Jae Kyu, 2012-03-31 This book generates a comprehensive overview of the recent advances in concepts technologies and applications that enable advanced business process management in various enterprises Provided by publisher *The Practice of Enterprise Modeling* Jaap Gordijn, Wided Guédria, Henderik A. Proper, 2019-11-19 This volume constitutes the proceedings of the 12th IFIP WG 8.1 Conference on the Practice of Enterprise Modeling held in November 2019 in Luxembourg Luxembourg The conference was created by the International Federation for Information Processing IFIP Working Group 8.1 to offer a forum for knowledge transfer and experience sharing between the academic and practitioner communities The 15 full papers accepted were carefully reviewed and selected from 35 submissions They are grouped by the following topics modeling and ontologies reference architectures and patterns methods for architectures and models and enterprise architecture for security privacy and compliance
