Barnstorming The Prairies How Aerial Vision Shaped The Midwest:

Barnstorming the Prairies Jason Weems, 2015 To Midwesterners tucked into small towns or farms early in the twentieth century the landscape of the American heartland reached the horizon and then imagination had to provide what lay beyond But when aviation took off and scenes of the Midwest were no longer earthbound the Midwestern landscape was transformed and with it Jason Weems suggests in this book the very idea of the Midwest itself *Barnstorming the Prairies* offers a panoramic vista of the transformative nature and power of the aerial vision that remade the Midwest in the wake of the airplane This new perspective from above enabled Americans to conceptualize the region as something other than isolated and unchanging and to see it instead as a dynamic space where people worked to harmonize the core traditions of America's agrarian character with the more abstract forms of twentieth century modernity In the maps and aerial survey photography of the Midwest as well as the painting cinema animation and suburban landscapes that arose through flight Weems also finds a different and provocative view of modernity in the making In representations of the Midwest from Grant Wood's iconic images to the Prairie style of Frank Lloyd Wright to the design of greenbelt suburbs Weems reveals aerial vision's fundamental contribution to regional identity to Midwesternness as we understand it Reading comparatively across these images Weems explores how the cognitive and perceptual practices of aerial vision helped to resymbolize the Midwestern landscape amid the technological change and social uncertainty of the early twentieth century

Aerial Archives of Race Etsuko Taketani, 2026-01-06 Opening new archives and narratives that emerge when we take an aerial turn in transpacific studies

Etsuko Taketani examines the genealogy and contours of the aerial imaginary and the corollary shifting planetary imaginary that evolved in a transnational space she terms the black nuclear Pacific Following the first aerial drop of an atom bomb on humans and the subsequent military occupation of Japan by the United States African American Japanese encounters happened on a scale unimaginable before the war Through texts from a diverse range of artists writers and political thinkers such as the NAACP s Walter White lawyer Edith Sampson Josephine Baker Langston Hughes Lorraine Hansberry and Malcolm X who had formative interactions with occupied Japan Taketani uncovers and analyzes African American cultural expressions that include a quasi alien abduction narrative a creation of a new tribe in the image of a rainbow on Earth a black futuristic apocalypse and a racial fantasy of the Mother Plane Through these cultural expressions Aerial Archives of Race tracks the black networks and exchanges with Japan from above that provoked new ways of thinking about human races on planet Earth Provided by publisher *Cultivating Citizens* Lauren Kroiz,2018-04-03 *Cultivating Citizens* rethinks the aesthetics and politics of regionalism in the United States during the 1930s and 1940s During this period painters Grant Wood Thomas Hart Benton and John Steuart Curry formed a loose alliance as American Regionalists Some lauded their depictions of the rural landscape and hardworking inhabitants of America s midwestern heartland Others deemed Regionalist painting dangerous regarding its easily understood realism as a vehicle for jingoism chauvinism and even fascism *Cultivating Citizens* shifts the terms of this ongoing debate over subject matter and style by considering heretofore neglected Regionalist programs of art education and concepts of artistic labor Provided by publisher **Old-Fashioned Modernism** Andy Oler,2019-06-12 The Midwest holds two conflicting positions in the American cultural imagination both of which rob the region of its distinctiveness Often it is seen as the heartland a pastoral ideal standing in for all of American culture Alternatively the Midwest can represent flyover country part of an expansive undifferentiated mass between the coasts In *Old Fashioned Modernism Rural Masculinity and Midwestern Literature* Andy Oler challenges both views by pairing fiction and poetry from the region with cultural and material texts that illustrate the processes by which regional modernism both opposes and absorbs prevailing models of twentieth century manhood Although it acknowledges a tradition of Midwestern urban literature *Old Fashioned Modernism* focuses on representations of life on farms and in small towns that generate specific forms of rural modernity Oler considers a series of male protagonists who both fulfill and resist conventional American narratives of economic advancement spatial experience and gender roles The writers he studies portray the onset of socioeconomic and mechanical modernity by merging realist and naturalist narratives with upwellings of modernist form and style His analysis charts a trajectory in which Midwestern literature depicts experiences that appear dependent on nostalgic pastoralism but actually foreground the ongoing fragmentation and emerging anxieties of the countryside In detailed readings of novels by Sherwood Anderson William Cunningham Langston Hughes Wright Morris and Dawn Powell as well as the poetry of Lorine Niedecker Oler highlights images of men from the rural Midwest who face the tensions between

agricultural production and mass industrialization These works of literature which Oler examines alongside pieces of material culture like advertisements for farm implements and record labels feature communities that support self made as well as corporate identities As portraits of the Midwest that resist the totalizing trajectory of industrialization these texts generate spaces that meld rural and urban economics land use and affective experiences Old Fashioned Modernism reveals how Midwestern regionalism negotiates the anxieties and dominant narratives of early and midcentury rural masculinities as regional literature and culture alter the forms and spaces of literary modernism

Chemical Lands David D. Vail, 2018 An exploration of the elaborate relationship between farmers aerial sprayers agriculturalists crop pests chemicals and the environment The controversies in the 1960s and 1970s that swirled around indiscriminate use of agricultural chemicals their long term ecological harm versus food production benefits were sparked and clarified by biologist Rachel Carson's Silent Spring 1962 This seminal publication challenged long held assumptions concerning the industrial might of American agriculture while sounding an alarm for the damaging persistence of pesticides especially chlorinated hydrocarbons such as DDT in the larger environment In Chemical Lands Pesticides Aerial Spraying and Health in North America's Grasslands since 1945 David D Vail shows however that a distinctly regional view of agricultural health evolved His analysis reveals a particularly strong ethic in the North American grasslands where practitioners sought to understand and deploy insecticides and herbicides by designing local scientific experiments engineering more precise aircraft sprayers developing more narrowly specific chemicals and planting targeted test crops Their efforts to link the science of toxicology with environmental health reveal how the practitioners of pesticides evaluated potential hazards in the agricultural landscape while recognizing the production benefits of controlled spraying Chemical Lands adds to a growing list of books on toxins in the American landscape This study provides a unique Grasslands perspective of the Ag pilots weed scientists and farmers who struggled to navigate novel technologies for spray planes and in the development of new herbicides insecticides while striving to manage and mitigate threats to human health and the environment

Power and Progress on the Prairie Thomas Biolsi, 2018-05-22 A critical exploration of how modernity and progress were imposed on the people and land of rural South Dakota The Rosebud Country comprising four counties in rural South Dakota was first established as the Rosebud Indian Reservation in 1889 to settle the Sicangu Lakota During the first two decades of the twentieth century white homesteaders arrived in the area and became the majority population Today the population of Rosebud Country is nearly evenly divided between Indians and whites In Power and Progress on the Prairie Thomas Biolsi traces how a variety of governmental actors including public officials bureaucrats and experts in civil society invented and applied ideas about modernity and progress to the people and the land Through a series of case studies programs to settle surplus Indian lands to civilize the Indians to modernize white farmers to find strategic sites for nuclear missile silos and to extend voting rights to Lakota people Biolsi examines how these various problems came into focus for government experts and how remedies were devised and implemented Drawing on

theories of governmentality derived from Michel Foucault Biolsi challenges the idea that the problems identified by state agents and the solutions they implemented were inevitable or rational Rather through fine grained analysis of the impact of these programs on both the Lakota and white residents he reveals that their underlying logic was too often arbitrary and devastating Global Heartland Peter Simons,2025-03-25 Highlighting the critical role of midwestern farmers in the creation of the American Century Though often left out of the story of the making of the American Century the farmers of the Midwest were at its center fueling the nation s growing power in the midtwentieth century In Global Heartland Peter Simons explores how after decades of slipping to the margins of an urbanizing economy these farmers assumed renewed strategic and cultural importance as they produced essential sustenance for overseas troops and food rations for a domestic population During the mid 1900s once isolationist midwestern farmers came to see the continental interior not as an insulated space but as an environmentally rich landscape that mandated them to accept a larger stake in global affairs Simons traces this transformation from an older agrarian internationalism rooted in religion and ties to family abroad to illuminate the increasing influence of the U S agricultural community during the Cold War Examining regional political parties Lend Lease programs wartime mass media and farmer led relief programs and interspersing this history with vignettes revisiting the Mercy Wheat campaign of 1947 the postwar International Farm Youth Exchange and the Flying Farmers organization Simons offers an enlightening consideration of midwestern farmers involvement in America s international ascent Unique in its focus on farmers and their work rather than the more common attention to food or agricultural commodities Global Heartland complicates and expands ideas of the farm industry s role in American history **World War I and American Art** Robert Cozzolino,Anne Classen Knutson,David M. Lubin,2016-11 World War I and American Art provides an unprecedented look at the ways in which American artists reacted to the war Artists took a leading role in chronicling the war crafting images that influenced public opinion supported mobilization efforts and helped to shape how the war s appalling human toll was memorialized The book brings together paintings drawings prints photographs posters and ephemera spanning the diverse visual culture of the period to tell the story of a crucial turning point in the history of American art Gas Mask Nation Gennifer Weisenfeld,2023-03-28 A fascinating look at the anxious pleasures of Japanese visual culture during World War II Airplanes gas masks and bombs were common images in wartime Japan Yet amid these emblems of anxiety tasty caramels were offered to children with paper gas masks as promotional giveaways and magazines featured everything from attractive models in the latest civil defense fashion to futuristic weapons Gas Mask Nation explores the multilayered construction of an anxious yet perversely pleasurable visual culture of Japanese civil air defense or b k through a diverse range of artworks photographs films and newsreels magazine illustrations postcards cartoons advertising fashion everyday goods government posters and state propaganda Gennifer Weisenfeld reveals the immersive aspects of this culture in which Japan s imperial subjects were mobilized to regularly perform highly orchestrated civil air defense drills throughout the country The war

years in Japan are often portrayed as a landscape of privation and suppression under the censorship of the war machine. But alongside the horrors, pleasure, desire, wonder, creativity, and humor were all still abundantly present in a period before air raids went from being a fearful specter to a deadly reality.
