the bread machine There are three basic methods for making bread Knead by hand the most common method Bread machine very popular but your loaf will have a silly little paddle in the bottom No knead a method in which Mother Nature does the kneading for you This cookbook uses the no knead method The advantages are No kneading Mother Nature does the kneading for you No yeast proofing instant yeast doesn't require proofing No special equipment no mixer no bread machine entire process is done in a glass bowl with a spoon and spatula and can be baked in a wide variety of baking vessels bread pan uncovered baker skillet preheated Dutch oven etc Only 4 ingredients flour salt yeast and water to which other ingredients can be added to make a variety of specialty breads There are two methods for making no knead bread Traditional proofs for 8 to 24 hours Turbo ready to bake in 2 1 2 hours This cookbook will start by teaching you how to make no knead bread using the traditional method then Turbo method because the traditional method is more popular and a little easier No knead bread can be baked in a variety of baking vessels Bread pan the 1st baking vessel for bread Dutch oven ideal for baking a round loaf boule Long covered baker ideal for baking half loaves and long loaves Poor man's Dutch oven combines the ease of baking in a bread pan with the principles of baking in a Dutch oven This cookbook starts by showing you how to bake no knead bread in a bread pan it's easy and safer than working with a hot Dutch oven Then we will expand our use of baking vessels to include the Dutch oven covered baker and poor man's Dutch oven PMDO And we won't stop there This cookbook will also show you how to make rolls pizza and pretzels Rolls you'll learn how to use bakeware to shape the rolls for you Pizza you'll learn how to make your own pizza dough Pretzels add one step to the process and you'll have pretzels What makes this cookbook different from others is Hands free technique a new and innovative technique that uses the handle end of a plastic spoon to manipulate the dough like a dough hook after which the dough goes straight from the mixing bowl to the baking vessel bread pan etc without dusting the work surface with flour or touching the dough with your hands Roll to coat an innovative technique that coats the dough ball with flour in the mixing bowl No more sticky dough When the dough comes out of the bowl it will be easy to handle if you wish to divide the dough into portions to make baguettes rolls etc Poor man's Dutch oven new and innovative technique which combines the ease of baking in a bread pan with the principles of baking in a Dutch oven The cookbook also includes sections that will help you understand ingredients technique and bakeware In other words I start with the simplest recipe then add one technique or method until you're a master baker Step by step this cookbook will take you on a journey you will love and enjoy Thanks Steve
