Beyond Add Hunting For Reasons In The Past And Present:

The Hidden History of Guns and the Second Amendment Thom Hartmann, 2019-06-04 In this precise primer on firearms practices and policies progressive talk show host Hartmann examines the history of routine gun usage and extreme gun violence and assesses the influence of gun ownership on contemporary political economic and social norms A brief but powerful analysis of a searing national crisis Booklist Taking his typically in depth historically informed view Thom Hartmann examines how guns have played important roles throughout American history from early European settlement to the Revolutionary War and Manifest Destiny through the use of Slave Patrols in the Deep South which became the well regulated militias so debated in 1787 to the assassination of John F Kennedy and recent school massacres Looking at the present Hartmann documents how inequality in America and the number of people killed in mass shootings have grown together over the last fifty years Finally he identifies a handful of common sense and powerful solutions that would address the issue at different levels from getting money out of politics to get the National Rifle Association out of lobbying to passing laws that would treat gun ownership like car ownership title license insurance to addressing the social despair and economic inequality that drive violent crime and mass shootings

The Hidden History of the Supreme Court and the Betrayal of America Thom Hartmann, 2019-10-01 The New York Times bestselling author delivers a full throated indictment of the U S Supreme Court in this punchy polemic Publishers Weekly In this book Thom Hartmann the most popular progressive radio host in America explains how the Supreme Court has spilled beyond its Constitutional powers and how we the people should take that power back Taking his typically in depth historically informed view Thom Hartmann asks What if the Supreme Court didn t have the power to strike down laws According to the Constitution it doesn t From the founding of the republic until 1803 the Supreme Court was the final court of appeals as it was always meant to be So where did the concept of judicial review start As so much of modern American history it began with the battle between the Federalists and Anti Federalists and with Marbury v Madison Hartmann argues it is not the role of the Supreme Court to decide what the law is but rather the duty of the people themselves He lays out the history of the Supreme Court of the United States from Alexander Hamilton s defense to modern day debates with key examples of cases where the Supreme Court overstepped its constitutional powers The ultimate remedy to the Supreme Court s abuse of power is with the people the ultimate arbiter of the law using the ballot box America does not belong to the kings and queens it belongs to the people A meticulously documented strategy for trimming the power of nine ideologically motivated political activists unaccountable to the will of the people important and timely David Korten author of When Corporations Rule the World

Rebooting the American Dream Thom Hartmann, 2011-08-01 If we are going to live in a democracy we need to have a healthy middle class tells us what needs to be done to reclaim what it is to be American Eric Utne founder Utne Reader America does not need an upgrade For years the Right has been tampering with one of the best political operating systems ever designed The result has been economic and

environmental disaster In this hard hitting book nationally syndicated radio and television host and bestselling author Thom Hartmann outlines eleven common sense proposals deeply rooted in America s history that will once again make America strong and Americans not corporations and billionaires prosperous Some of these ideas will be controversial to both the Left and the Right but the litmus test for each is not political correctness but whether or not it serves to revitalize this country we all love and make life better for its citizens

The Hidden History of Monopolies Thom Hartmann,2020-08-25 This is the most important dynamic book on the cancers of monopoly by giant corporations written in our generation Ralph Nader from the foreword American monopolies dominate control and consume most of the energy of our entire economic system they function the same as cancer does in a body and like cancer they weaken our systems while threatening to crash the entire body economic American monopolies have also seized massive political power and use it to maintain their obscene profits and CEO salaries while crushing small competitors But Thom Hartmann America s 1 progressive radio host shows we ve broken the control of behemoths like these before and we can do it again Hartmann takes us from the birth of America as a revolt against monopoly remember the Boston Tea Party to the largely successful efforts of both Presidents Theodore and Franklin Roosevelt and other like minded leaders to restrain corporations monopolistic urges to the massive changes in the rules of business starting during the Reagan Revolution that have brought us to the cancer stage of capitalism He shows the damage monopolies have done to so many industries agriculture healthcare the media and more Individuals have taken a hit as well the average American family pays a 5 000 a year monopoly tax in the form of higher prices for everything from pharmaceuticals to airfare to household goods and food But Hartmann also describes commonsense historically rooted measures we can take such as revitalizing antitrust regulation taxing great wealth and getting money out of politics to pry control of our country from the tentacles of the monopolists

Unequal Protection Thom Hartmann,2010-06-07 This is a seminal work a godsend really a clear message to every citizen about the need to reform our country laws and companies Paul Hawken New York Times bestselling author NEW EDITION REVISED AND UPDATED Unequal taxes unequal accountability for crime unequal influence unequal control of the media unequal access to natural resources corporations have gained these privileges and more by exploiting their legal status as persons How did something so illogical and unjust become the law of the land Americans have been struggling with the role of corporations since before the birth of the republic As Thom Hartmann shows the Boston Tea Party was actually a protest against the British East India Company the first modern corporation Unequal Protection tells the astonishing story of how after decades of sensible limits on corporate power an offhand off the record comment by a Supreme Court justice led to the Fourteenth Amendment originally passed to grant basic rights to freed slaves becoming the justification for granting corporations the same rights as human beings And Hartmann proposes specific legal remedies that will finally put an end to the bizarre farce of corporate personhood This new edition has been thoroughly updated and features Hartmann s analysis of two recent Supreme Court cases including Citizens

United v Federal Election Commission which tossed out corporate campaign finance limits If you wonder why and when giant corporations got the power to reign supreme over us here s the story Jim Hightower national radio commentator and New York Times bestselling author Tell s the grand story of corporate corruption and its consequences for society with the force and readability of a great novel David C Korten bestselling author of When Corporations Rule the World *The Hidden History of American Democracy* Thom Hartmann,2023-07-18 America s most popular progressive radio host and New York Times bestselling author Thom Hartmann paves the way to saving our democracy In this powerful sweeping history and analysis of American democracy Thom Hartmann shows how democracy is the one form of governance most likely to produce peace and happiness among people With the violent exception of the Civil War American democracy resisted the pressure to disintegrate into factionalism for nearly two centuries and now our very system of democratic elections is at stake So how do we save our democracy Hartmann s newest book in the celebrated Hidden History Series offers a clear call to action and a set of solutions with road maps for individuals and communities to follow to create a safer more just society and a more equitable and prosperous economy **The Hidden History of American Oligarchy** Thom Hartmann,2021-02-01 The New York Times bestselling author looks at the real history of the corrupting influence of oligarchy in America and how we can fight back Billionaire oligarchs want to own our republic and they re nearly there thanks to legislation and Supreme Court decisions that they have essentially bought They put Trump and his political allies into office and support a vast network of think tanks publications and social media that every day push our nation closer and closer to police state tyranny The United States was born in a struggle against the oligarchs of the British aristocracy and ever since then the history of America has been one of dynamic tension between democracy and oligarchy And much like the shock of the 1929 crash woke America up to glaring inequality and the ongoing theft of democracy by that generation s oligarchs the coronavirus pandemic of 2020 has laid bare how extensively oligarchs have looted our nation s economic system gutted governmental institutions and stolen the wealth of the former middle class Thom Hartmann the most popular progressive radio host in America and a bestselling author traces the history of this struggle against oligarchy from America s founding to the United States war with the feudal Confederacy to President Franklin Roosevelt s struggle against economic royalists who wanted to block the New Deal In each of those cases the oligarchs lost the battle But with increasing right wing control of the media unlimited campaign contributions and a conservative takeover of the judicial system we re at a crisis point Now is the time for action before we flip into tyranny We ve beaten the oligarchs before and we can do it again Hartmann lays out practical measures we can take to break up media monopolies limit the influence of money in politics reclaim the wealth stolen over decades by the oligarchy and build a movement that will return control of America to We the People Praise for *The Hidden History of American Oligarchy* For every American interested in protecting our democracy everyone puzzled about how America came to the brink of authoritarian rule and for all who enjoy a being educated and entertained by enthralling eye opening riveting journey

in U S history The Hidden History of Oligarchy is a must read Don Siegelman former Governor of Alabama author of Stealing Our Democracy Thom Hartmann is America s history teacher a national treasure laying it out scary and clear tyranny can happen here Oligarchy s choking democracy Mimi Kennedy actress board member Progressive Democrats of America
