The Optimist Keach Hagey, 2025-05-20 Excellent and deeply reported Tim Wu New York Times Book Review The first major biography of tech s newest titan this sets a high bar for those to follow Publishers Weekly starred review An exemplary blend of biography financial technology reportage and futurology Kirkus starred review From an acclaimed Wall Street Journal reporter comes the first biography of the enigmatic leader of the AI revolution charting his ascent within the tech world as well as his ambitions for this powerful new technology On November 30 2022 OpenAI released ChatGPT a chatbot that captivated the world with its uncanny ability to hold humanlike conversations Not even a year later on November 17 2023 Sam Altman the CEO of OpenAI was summarily fired on a video call by the company s board The firing made headlines around the globe OpenAI is the leader in the race to build AGI artificial general intelligence or AI that can think like a human being and Altman is the most prominent figure in the field Yet it was mere days before Altman was back running the company he had co founded with most of the directors who voted to fire him themselves removed from the board The episode was a demonstration of how quickly the industry is moving and of Altman s power to bend reality to his will In *The Optimist* the Wall Street Journal reporter Keach Hagey presents the most detailed account yet of Altman s rise from his precocious childhood in St Louis to his first failed startup experience his time as legendary entrepreneur Paul Graham s prot g and successor as head of Y Combinator the start up accelerator where Altman became the premier power broker in Silicon Valley the founding of OpenAI and his recruitment of a small yet superior team and his struggle to keep his company at the cutting edge while fending off determined rivals including Elon Musk a former friend and now Altman s bitter opponent Hagey conducted more than 250 interviews with

Altman's family, friends, teachers, mentors, co-founders, colleagues, investors, and portfolio companies, in addition to spending hours with Altman himself. The person who emerges in her portrait is a brilliant dealmaker with a love of risk who believes in technological progress with an almost religious conviction yet who sometimes moves too fast for the people around him. With both the promise and peril of AI increasing by the day, Hagey delivers a nuanced, balanced, revelatory account of the individual who is leading us into what he himself has called the intelligence age. Altman is a figure out of Isaac Asimov or Neal Stephenson. Or he is the author himself if it feels as though we have all collectively stepped into a science fiction short story; it is Altman who is writing it. *The Diary of Albert Wang: October 2009-December 2009* Albert Wang, 2010-07-05. The Diary of Albert Wang, October 2009-December 2009, starts its narrative a little bit before his 33rd birthday. Encompassing much controversy as the first most likely public journal executed as a transcript of this performance artist's text messages during this time period, this book provides a profound look into the artist/writer's daily activities, ranging from the businesslike to the sexual, passionate tone. The secret life of a run-of-the-mill Salt Lake City resident and displaced New Yorker reveals too many details without flinching yet enveloping the essence of a single Asian male obsessed with daily text messaging and living as a work of art, just like On Kawara with his date paintings and postcards. The reader will be taken on this intellectually salacious experimental journey. *The Fader*, 2006. *Imaging in Advertising* Fern L. Johnson, 2012-08-06. The dominance of advertising in everyday life carries potent cultural meaning. As a major force in the rise of image-based culture, advertising spreads images that shape how people live their lives. While scholarship on visual images has advanced our understanding of the role of advertising in society, for example, in revealing how images of extremely thin female models and athletic heroes shape ideals and aspirations, images circulated through language codes or verbal images in advertising have received less attention. *Imaging in Advertising* explores how the verbal and visual work together to build a discourse of advertising that speaks to audiences and has the power to move them to particular thoughts and actions. In this book, Fern L. Johnson presents a series of case studies exploring important advertising images: racial connotations in cigarette advertising; representations of cultural diversity in teen television commercials; metaphors of the face appearing in ads for skin care products; language borrowed from technology to sell non-technology products; and the illusion of personal choice that is promoted in many Internet web sites. Johnson argues that examining the interplay of verbal and visual images as a structured whole exposes the invasive role of advertising in shaping culture in 21st-century America. *Why Men Fear Marriage* R. M. Johnson, 2009-07-28. R. M. Johnson, 1. *Essence* bestselling author of *The Million Dollar Divorce* offers an enlightening perspective to the question that has baffled millions of women for decades. Johnson's fiction writing has been described as powerful and bold from the heart, thought-provoking and life-changing. Eric Jerome Dickey and he expertly allows female readers access to the male perspective. Now in *Why Men Fear Marriage*, his first foray into nonfiction, his insight illuminates a topic that has increased in intensity and relevance in recent decades. *Why Men Fear Marriage* sheds important light on

several issues behind men's inability to commit Johnson explains why men cling to their single status and offers tips for identifying whether or not a man is truly interested in marriage This helpful guide equips women with the tools to distinguish between someone who is Mr Right as opposed to Mr Right Now and helps women to see situations the way that men often see them Informative and engaging Why Men Fear Marriage is a bold and much needed discussion of an issue that deeply touches millions of people regardless of race or gender Missing ... and Presumed Dead Michael Fleeman, 2019-11-05 The true story of a bizarre case in Myrtle Beach and the trials that followed a young woman's disappearance by the bestselling author of Better Off Dead On a cold Southern night in 2013 under a full moon twenty year old Heather Elvis parked her car at a boat ramp along the Intracoastal Waterway and was never seen again The disappearance of the beautiful vivacious hostess at a popular Myrtle Beach South Carolina restaurant made international headlines and triggered a sweeping high stakes investigation that exposed a twisted web of deception betrayal sexual obsession police corruption and revenge But Heather's body was never located A series of sensational trials involving a handsome restaurant coworker and his Disneyland obsessed wife resulted in shocking verdicts but no body as her family desperately sought closure and fought for justice and a resort town struggled to regain calm This is the full compelling story from a renowned author of true crime
