Authority In The Church And The Schillebeeckx Case:

Authority in the Church and the Schillebeeckx Case Leonard J. Swidler, Pieter Frans Fransen (S.J.), 1982 **Christ's Idea of Authority in the Church** John Wijngaards, 2023-08-23 The Catholic Church like other churches has created institutions to support its spiritual mission The exercise of authority plays a central role in how they function The truth is that ugly accretions have attached themselves to that authority in the course of the centuries Like weeds scallops and rubbish clinging to the bottom of a ship Think of unchristian cultural views customs and practices from the Roman Empire the barbarian tribes in Europe and the feudalistic Middle Ages that nailed themselves to the ministries These cancerous growths have even been enshrined in church laws This booklet identifies what is wrong by going back to Jesus original intentions Find out how Jesus wanted the spiritual authority he gives to be exercised in practice **The Office and Authority of the Local Prior in the Order of Saint Augustine** Robert F. Prevost, 2025-10-10 As a young priest Robert Prevost was sent in 1981 to Rome to study church law at the Pontifical University of Saint Thomas known as the Angelicum There he earned a licentiate and composed a doctoral thesis which made final in 1987 This is that thesis the first book length work composed by the man now known as Pope Leo XIV Specifically his study drawing from sources in English Italian and Spanish and from medieval history and theology as well as canon law focused on the role of the prior as the local superior in the Order of St Augustine In doing so he describes a traditional notion of obedience in religious life one based on love of the truth and growth in one's inner freedom to pursue holiness At the center of his reflection are key ideas regarding the common good of the Church the Eucharistic liturgy at the center of the life of the community the role of hierarchy and consultation and mutual respect for the diverse contributions of each person Present in this text moreover is a far reaching conception of the priesthood characterized by the triple munera the priestly work of teaching sanctification and governance Central to the whole volume is an Augustinian conception of the spiritual life that focuses on the inward work of grace the primacy of the love of God and inward conformity to Christ The book's preface composed by eminent theologian and present day rector of the Angelicum Fr Thomas Joseph White OP helps frame the work for the wider public interested in it as a privileged window into the mind and heart of Prevost as a young priest showing how its subject matter has implications for how one thinks about the life of the Catholic Church There are clearly in this early work central themes regarding the life of Church the apostolic tradition and ecclesial authority in the service of the common good that may well indicate directions and themes in the subsequent life and teaching of the author Canonists will be drawn to Prevost's analysis of the Constitutions of the Augustinians in light of the then newly promulgated Code of Canon Law Historians and theologians alike may enjoy considering parallelisms that occur between this Augustinian vision of the prior and the subsequent unfolding of an Augustinian pontificate Hopefully the publication of this work will lead to constructive debate about and comprehension of the relation of between the two

Theology and the Quest for Truth Mathijs Lamberigts, Lieven Boeve, Terrence Merrigan, 2006 In 2001 three research groups from the field of systematic theology and church history at the Faculty of Theology K U Leuven decided to join forces in an interdisciplinary project entitled Orthodoxy Process and Product The main aim of this project consists of a church historical and systematic theological study of the determination of truth in church and theology Senior and junior scholars from the three groups agreed to take this theme as the starting point and leading question from which the many research projects they are engaged in could be brought into relationship and as far as possible integrated Although the question for theological truth already structured the research being conducted in the three groups to a significant degree joining forces promised the realisation of a surplus value and this both through the gathering of a considerable critical mass in total more than thirty junior and senior researchers and the interdisciplinary design of the project In this volume a first collection of contributions to this project

from a diversity of angles and research subjects is presented In these contributions scholars from the participating research groups investigate the implications of the overall research question for their particular line of research and research methodologies and suggest how from this specific research the overall question may be refined and elements of answering it can be provided

[Finding Salvation in Christ](#) Christopher D. Denny, Christopher McMahon, 2011-05-01 Finding Salvation in Christ brings together some of the most important figures in contemporary theology to honor the work of William Loewe systematic theologian and specialist in the theology of Bernard Lonergan SJ For over three decades Loewe s writings have sought to make classic christological and soteriological doctrines comprehensible to a Catholic Church that is working to integrate individual subjectivity communal living and historical consciousness in the wake of the Second Vatican Council Essays included in this volume assess Loewe s reinterpretation of patristic and medieval Christology from Irenaeus to Anselm of Canterbury and explain the significance of the theology of Lonergan and Loewe for the fields of soteriology economics family life and interreligious theology While some recent postliberal theologies have polarized the church s relationship with contemporary culture by minimizing similarities between Christianity and other worldviews the contributors in this volume continue Lonergan s project of integrating the findings of various intellectual disciplines with Christian theology and use Loewe s historical and systematic work as a guide in that endeavor While Lonergan s transcendental Thomism has been criticized by both traditionalists and revisionists essays in this collection apply Loewe s theological methodology in a variety of ways to demonstrate that time honored doctrines about Christ can be transplanted into new cultural contexts and gain intelligibility and credibility in this process Having lived and labored through the far reaching changes in Catholic thought introduced in recent decades Loewe s career provides a model for theologians attempting to build bridges between the past and the present and between the church and the world

Salvation in the World Stephan van Erp, Christiane Alpers, Christopher Cimorelli, 2017-09-07 What happens when Edward Schillebeeckx s theology crosses paths with contemporary public theology This volume examines the theological heritage that Schillebeeckx has left behind as well as it critically assesses its relevance for temporary theological scene In tracing the way s in which Schillebeeckx observed and examined his own context s increasing secularization and concomitant development toward atheism the contributors to this volume indicate the potential directions for a contemporary public theology that pursues the path which Schillebeeckx has trodden The essays in the first part of this volume indicate a different theological self critique undertaken in response to developments in the public sphere This is followed by a thorough examination of the degree to which Schillebeeckx succeeded in leading Christian theology ahead without merely accommodating the Christian tradition to current societal trends The third part of the volume discusses the issues of climate change social conceptions of progress as well as the evolutionary understandings of the origins and purpose of religions The final part examines Schillebeeckx s soteriology to contemporary discussions about wholeness

Democracy in the Christian Church , 2012-04-12 A survey of historical

theological and philosophical arguments for a democratization of the Christian church **Liturgy as Revelation** Philip Caldwell, 2014-12-01 A critical issue in modern Catholic theology has been the relationship between the doctrine of revelation and the church's liturgical and sacramental practice. This volume argues that although in the twentieth century Catholic theology increasingly recognized the centrality of Christology, particularly the person of Christ as the locus of revelation and drew out the crucial implications of Christ as the revelation of God, it was slow to connect this revelatory dynamic with the encounter that occurs within the sacramental space of the liturgy, most notably the Eucharist. Taking the decline of the neoscholastic enterprise in Catholic theology and the challenges posed by modernism as his point of departure, Philip Caldwell traces the evolution of the Catholic theology of revelation in the twentieth century and the vital role played by the liturgical and sacramental renewal movements in reimagining this pivotal theological category. Examining the specific contributions of René Latourelle, Avery Dulles, Salvatore Marsilli, and Gustave Martelet against a background of pre-conciliar ressourcement theology, this volume provides a comprehensive account of why a Trinitarian and Christological construal of liturgy and sacraments as revelation is key to the vision that informed Vatican II and offers constructive theological and ecclesial possibilities for the future.
