Lok, Marjet Brolsma, Robin de Bruin, Stefan Couperus, Rachel McElroy White, 2025-05-21 This book shows how antiliberal discourse thought and mobilization have in defiance of nationalist aims been significantly shaped and determined in the international sphere as new collaborations position themselves against the liberal order established after the fall of the Berlin Wall Despite often drawing inspiration from nationalist movements and ideologies antiliberalism is a phenomenon that transcends domestic contexts and settings in important ways This collection of essays charts the many sided aspects of twentieth century internationalism and its contemporary developments across the globe Without excluding well known European sources of antiliberal internationalism it decentres the European experience by exploring specific case studies from South and East Asia the Middle East the Americas Africa and Oceania Moreover the volume abundantly demonstrates that liberalism and anti liberalism cannot be considered as fixed entities as anti liberalism was and is as much defined by its enemies as by its advocates This book is intended for scholars and students of International Studies Intellectual History Political History Political Science European Studies and Global Studies as well as for journalists and policymakers interested in contemporary Europe cosmopolitanism political polarization and the traditions of the right and far right **Authority and Its Enemies** Tamás Molnár, 1976 *As One with Authority, Second Edition* Jackson W. today face both old and often new unprecedented challenges spiritual moral technological and economic for which there are no easy solutions Facing such challenges calls for pastors able to lead with authority in ways at the same time faithful to the gospel and appropriate to the congregation's setting and the issues at hand Yet many pastors are unsure of their authority often experiencing conflict as they attempt to lead Others have abused their authority and brought mistrust and suspicion to

ordained ministry making it difficult for other clergy to lead In this book a new and revised edition of his earlier highly regarded work on pastoral authority and leadership Jackson Carroll brings together theological and sociological perspectives to provide an interpretation of pastoral authority as reflective leadership a style of leadership that involves vision and discernment and that is appropriate for the many roles in which pastors engage preaching worship leadership teaching counseling and shaping the congregation s corporate life In this new edition Carroll draws on what he has learned from many conversations with pastors and lay leaders since the book s initial publication as well as insights from others He also introduces helpful new case material from practicing pastors and incorporates the perspectives of several recent leadership theorists and practitioners to deepen and enhance the discussion of pastoral authority as reflective leadership *Authority and Freedom* Alfred Edward John Rawlinson,1924 Reason and Authority in the Eighteenth Century Gerald R.

Cragg,2013-03-28 Originally published in 1964 this book examines the influence of reason and authority upon English thought in the eighteenth century The text relates these two concepts to movements in religious and political thought beginning with Locke s views on faith and reason before going through various areas and finishing with the beginnings of Romanticism The age of the Enlightenment is seen as constituted on the one hand by an attempt to relate all significant intellectual movements to reason and on the other an attempt to devise proper restraints on the authority of reason This book will be of value to anyone with an interest in philosophy social and political thought and eighteenth century English history

Autonomy, Authority and Moral Responsibility T. May,2013-03-14 Questions about the relationship between autonomy and authority are raised in nearly every area of moral philosophy Although the most ob vious of these is political philosophy especially the philosophy of law the issues surrounding this relationship are by no means confined to this area Indeed as we shall see as this work progresses the issues raised are central to moral psychology religion professional ethics medical ethics and the nature of moral systems generally Although the title of this work is Autonomy Authority and Moral Responsibility we shall be concerned with the more general question about the relationship between autonomy or self direction and external influences which I take to be any guide to behavior whose presence content or substance is dependent upon something beyond the control of the agent Something is beyond the control of the agent if the agent cannot determine whether or not it is present what its content consists of or whether or not or in what way it influences her These external influences may include but are not necessarily limited to religious convictions which guide behavior according to a doctrine whose content is established independently of the agent moral obligations which require action in accordance with some moral theory and desires for objects or states of affairs whose presence or absence is beyond the control of the agent Of course external influences may also include the requirements of authority or law **The Witness of Our Lord Jesus Christ to the Authority of the Old Testament Scriptures.
