Authors Of The Impossible The Paranormal And The Sacred:

Authors of the Impossible Jeffrey J. Kripal, 2010-05-30 This is a quietly earth shattering project that constitutes a logical next step in the development of Jeffrey Kripal's thinking over the course of his career and grows directly out of *Esalen*. In Kripal we have a classic Romantic thinker/writer who is formulating in a conscious meld of the subjective and objective that is the hallmark of Romantic writing his own distinctive and highly original *Biographia Spiritualis*. Victoria Nelson author of *The Secret Life of Puppets*

Paranormal States D. E. Ostro, 2024-09-10 A number of converts to Buddhism report paranormal experiences. Their accounts describe psychic abilities like clairvoyance and precognition out of body experiences near death experiences and encounters with other beings such as ghosts and deities and they often interpret these events through a specifically Buddhist lens. This book is a groundbreaking exploration of these phenomena and their implications for both humanistic and scientific study of the paranormal. D. E. Ostro examines accounts of paranormal phenomena experienced by convert Buddhists from around the world collected through an online survey and interviews placing them in the context of Indian Buddhist sources and recent scientific research. They focus in detail on the life stories of two interviewees and the important role the paranormal has played in their lives. These contemporary first person narratives demonstrate the continued importance of the psychic and paranormal within the Buddhist tradition and they can be interpreted as a living Buddhist folklore. Ostro considers the limitations of both traditional religious views and Western scientific studies of the paranormal and proposes instead a new Buddhist phenomenological approach. Ultimately *Paranormal States* contends these deeply mysterious and extraordinary experiences exceed current understandings and they can help bridge the gap between religious and scientific worldviews

The Superhumanities Jeffrey J. Kripal, 2024-05-31 A bold challenge to rethink the humanities as intimately connected to the superhuman and to decolonize reality itself. One of the foremost historians of religion and a consummate storyteller, Kripal makes a compelling case for restoring the anomalous and inexplicable to the heart of inquiry in the humanities. A must read for anyone interested in the future of education, society and indeed reality and for all who have experienced or would like to experience amazement. Priscilla Wald author of *Contagious Cultures: Carriers and the Outbreak Narrative*. What would happen if we reimagined the humanities as the superhumanities? If we acknowledged and celebrated the undercurrent of the fantastic within our humanistic disciplines, entirely new cultural worlds and meanings would become possible. That is Jeffrey J. Kripal's vision for the future: to revive the suppressed dimension of the superhumanities which consists of rare but real altered states of knowledge that have driven the creative processes of many of our most revered authors, artists and activists. In Kripal's telling, the history of the humanities is filled with precognitive dreams, evolving superhumans and doubled selves. The basic idea of the superhuman for Kripal is at the core of who and what the human species has tried to become over millennia and around the planet. After diagnosing the basic malaise of the humanities, that the truth must be depressing, Kripal shows how it can all be done differently. He argues that we have to

decolonize reality itself if we are going to take human diversity seriously Toward this pluralist end he engages psychoanalytic Black critical feminist postcolonial queer and ecocritical theory He works through objections to the superhumanities while also recognizing the new realities represented by the contemporary sciences In doing so he tries to move beyond naysaying practices of critique toward a future that can embrace those critiques within a more holistic view a view that recognizes the human being as both a social political animal as well as an evolved cosmic species that understands and experiences itself as something super An electrifying glorious loving and almost deranged romp through humanity's greatest recurrent ideas and experiences The Superhumanities is for anyone who senses that the transformative power of books ideas and spiritual experiences are intertwined and too often estranged Jonathan Haidt author of *The Righteous Mind Why Good People Are Divided by Politics and Religion* *The Encyclopedia of Parapsychology* Courtney M. Josephson-Storm, 2017-05-18 This study of the early human sciences and their deep connections to spiritualism dispenses with the myth that separates magic and modernity Many theorists contend that the defining feature of modernity is our collective loss of faith in spirits myths and magic But in *The Myth of Disenchantment* Jason A Josephson Storm argues against this narrative showing that attempts to suppress magic have failed more often than not Even the human sciences have been more enchanted than is commonly supposed But that raises the question How did a magical spiritualist mesmerized Europe ever convince itself that it was disenchanting Josephson Storm traces the history of the myth of

disenchantment in the births of philosophy anthropology sociology folklore psychoanalysis and religious studies He demonstrates that the founding figures of these mythless disciplines were in fact profoundly enmeshed in the occult and spiritualist revivals of Britain France and Germany It was in response to this milieu that they produced notions of a disenchanted world By providing a novel history of the human sciences and their connection to esotericism *The Myth of Disenchantment* dispatches with most widely held accounts of modernity and its break from the premodern past *Sophos Ontology* Lee Irwin,2024-01-04 *Sophos Ontology On Post Traditional Spirituality* discusses religious plurality and post traditional perspectives on emergent forms of sacred sensibility particularly for those identifying as spiritual but not religious This book is divided into three parts The first part is a retrospective account of multiple religious traditions with emphasis on esoteric thought as influenced by mystical writings covering western eastern and Native American traditions The second part discusses the need for a new conceptualization of the sacred as expressed through multiple spiritual perspectives relevant to a pansentient post traditional process ontology Other topics in this section include the importance of an ethically shaped spirituality collective influences dreams imagination and the role of pluralism in shaping beliefs Part three explores the role of faith redefined as spiritual commitment mysticism as direct experiential knowledge and transpersonal theory influenced by comparative studies in altered states of consciousness paranormal research and the metaphysics of discovery all contributing to the development of present and future spirituality *UFOs, Conspiracy Theories and the New Age* David G. Robertson,2016-02-25 How and why were UFOs so prevalent in both conspiracy theories and the New Age milieu in the post Cold War period In this ground breaking book David G Robertson argues that UFOs symbolized an uncertainty about the boundaries between scientific knowledge and other ways of validating knowledge and thus became part of a shared vocabulary Through historical and ethnographic case studies of three prominent figures novelist and abductee Whitley Strieber environmentalist and reptilian proponent David Icke and David Wilcock alleged reincarnation of Edgar Cayce the investigation reveals that millennial conspiracism offers an explanation as to why the prophesied New Age failed to arrive it was prevented from arriving by malevolent hidden others Yet millennial conspiracism constructs a counter elite a gnostic third party defined by their special knowledge An overview of the development of UFO subcultures from the perspective of religious studies *UFOs Conspiracy Theories and the New Age* is an innovative application of discourse analysis to the study of present day alternative religion *Freud on Religion* Marsha Aileen Hewitt,2014-09-11 Freud argued that religions originate in the unconscious needs longings and fantasies of human minds His work has served to highlight how any analysis of religion must explore mental life both the cognitive and the unconscious *Freud on Religion* examines Freud s complex understanding of religious belief and practice The book brings together contemporary psychoanalytic theory and case material from Freud s clinical practice to illustrate how the operations of the unconscious mind support various forms of religious belief from mainstream to occult *Freud on Religion* offers a new way of understanding Freud s thinking and

demonstrates how valuable psychoanalysis is for the study of religion **What Matters?** Courtney Bender, Ann Taves, 2012-05-08 Over the past decade religious secular and spiritual distinctions have broken down forcing scholars to rethink secularity and its relationship to society Since classifying a person activity or experience as religious or otherwise is an important act of valuation one that defines the characteristics of a group and its relation to others scholars are struggling to recast these concepts in our increasingly ambiguous pluralistic world This collection considers religious and secular categories and what they mean to those who seek valuable ethical lives As they investigate how individuals and groups determine significance set goals and attribute meaning contributors illustrate the ways in which religious secular and spiritual designations serve as markers of value Reflecting on recent ethnographic and historical research chapters explore contemporary psychical research and liberal American homeschooling the work of nineteenth and early twentieth century American psychologists and French archaeologists the role of contemporary humanitarian and volunteer organizations based in Europe and India and the prevalence of highly mediated and spiritualized publics from international psy trance festivals to Ghanaian national political contexts Contributors particularly focus on the role of ambivalence attachment and disaffection in the formation of religious secular and spiritual identities resetting research on secular society and contemporary religious life while illuminating what matters in the lives of ordinary individuals *Religion and Myth in the Marvel Cinematic Universe* Michael D.
