not the original book *A Parent's Guide to High Functioning Autism Spectrum Disorder* by Sally Ozonoff provides a comprehensive look at the challenges and strengths of individuals with high functioning ASD. The book traces the evolution of the autism diagnosis including the integration of Asperger syndrome into the broader ASD category in the DSM 5. It emphasizes the importance of early diagnosis and intervention, noting the rising prevalence of ASD and the variability in outcomes.

A Practical Guide to Autism Fred R. Volkmar, Lisa A. Wiesner, 2009-08-17 Autism is in the public spotlight now more than ever as new research and information appears almost daily. Although in many ways this is a positive development, it also presents challenges to families and practitioners who want to keep up with the latest developments and are left to sift through new information by themselves to see what is credible and relevant for them. Each of us needs a personal research assistant who can determine which information we need to pay attention to and let us know how it might affect our daily work and the children we are living with or serve. Since we each don't have our own research assistants on staff, I am delighted to recommend this wonderful book by Fred Volkmar and Lisa Wiesner. Both of these talented professional leaders have combined their scientific skills and understanding of the field with great practical experience and ideas about how research can be translated into clinical practice. The result is a book that provides the best and most comprehensive information about recent scientific developments and a splendid practical guide for how they are being implemented and what we are learning in the process. The issues are presented in all of their complexity but translated into language that is clear, direct, and easy to follow. The format also lends itself to understanding the complex issues and their implications through excellent charts, question and answer sections, and chapters that vary from describing diagnostic issues to stating very specifically how to expand and evaluate the services one is receiving. The comprehensive references and lists of additional resources also add greatly to the overall package. As a professional dedicated to understanding scientific advances and helping families and teachers to utilize them most effectively, I am very pleased to have an ally like this book available. I am very grateful to the authors for providing a very credible, practical, and relevant addition to our field to help the many advocates and family practitioners to better understand the exciting new developments and how they can be implemented in our day-to-day work. Those taking the time to read through this superb volume will find it time well spent that pays back dividends in many different ways.

FOREWORD by Gary B. Mesibov, Ph.D., Professor and Director of TEACCH Treatment and Education of Autistic and Related Communication Handicapped Children, University of North Carolina at Chapel Hill.

Empowering Parents of Children with Autism Spectrum Disorder Amanda Webster, Joy Cumming, Susannah Rowland, 2016-10-26 This book presents an international research-based framework that has empowered parents of children with autism spectrum disorder (ASD) to become critical decision makers to actively guide their child's learning and self-advocacy. Parents can use this framework to identify their child's vision and dreams and to work with educators and service providers to establish specific learning goals and to implement effective interventions and programs that enable their child to

achieve those goals and realise their vision for the future The book begins by reviewing available research on evidence based practice for children with ASD and outlining the Cycle of Learning decision making framework for parents and professionals Throughout the remainder of the book case studies are presented to illustrate the ways in which different parents have successfully utilised this framework to develop effective plans for their child and to advocate for learning and education programs for both their child and other children with ASD in school and community settings In addition it highlights concrete examples of how parents have used the framework to empower their children with ASD to develop their self awareness and self determination and to be able to self advocate as they move through adolescence and into adult life
