Autism As Context Blindness

Peter Vermeulen

Autism As Context Blindness:

Autism as Context Blindness Peter Vermeulen, 2012-05-12 Dr Vermeulen has produced a brilliant work that demands attention Autism as Context Blindness provides a unique glance into the minds of individuals with autism A Mom's Choice Award winner Autism as Context Blindness provides a unique glance into the minds of individuals with autism It is simple but groundbreaking Application of Vermeulen's insights will help autists to better understand contexts in which they live While we have become increasingly familiar with the term autistic thinking people with autism are still misunderstood In this book inspired by the ideas of Uta Frith the internationally known psychologist and a pioneer in theory of mind as it relates to autism Vermeulen explains in everyday terms how the autistic brain functions and highlights the impact of not understanding context Full of often humorous examples the book examines context as it relates to observation social interactions communication and knowledge The book concludes with a section on how to reduce context blindness a skill vital for successful functioning Due to the far reaching consequences of context blindness this book is a must read for those living and working with somebody with autism Dr Vermeulen's insights regarding context blindness deliver fresh perspective on how individuals with autism spectrum disorder ASD perceive and respond to their environment Context Blindness Eva Berger, 2022 This book shows that since we have delegated the ability to read context to contextual technologies social media location and sensors we have become context blind Since this is one of the most dominant symptoms of autistic behavior people with autism may indeed be giving us a peek into our human condition soon Autism and The Predictive Brain Peter Vermeulen, 2022-10-26 What if our previous teachings and beliefs regarding processing stimuli reading emotions and understanding human behaviour is all untrue In this book Peter Vermeulen investigates new findings on the predictive brain and what these insights mean for autism and current interventions Recent research has shown that the classic ideas about how the human brain first needs to process incoming information about the world before it can react are no longer tenable Rather to survive in the volatile uncertain complex and ambiguous environment of modern society what we need is a brain that predicts the world quickly and unconsciously while taking proper account of the context This book explains the new theories relating to the predictive brain summarising some of the more recent highly technical research studies about the predictive mind and autism into as accessible and understandable language as possible Shedding new light on the predictive brain and its relation to autism the chapters lead readers to the inevitable conclusion that many of the current interventions used in connection with autism urgently need updating and outline possibilities for revising This approachable book synthesises advanced research for professionals across disciplines working with people with autism spectrum disorder along with readers who have or have family members with ASD *Autism As Context Blindness Instructor Manual* Vermeulen, 2012-12 An instructor manual to accompany the Textbook edition It consists of suggested learner objectives review questions and answers chapter summaries and glossary as well as suggested class projects and activities **Is This**

Autism? Donna Henderson, Sarah Wayland, Jamell White, 2023-07-25 This companion guide to *Is This Autism A Guide for Clinicians and Everyone Else* shows clinicians how to assess for the possibility of autism in clients of all ages Understanding of autism has greatly expanded in recent years and many clinicians feel ill equipped or confused about how to incorporate this knowledge into their diagnostic process As a result countless unidentified autistic people do not have reasonable access to proper identification or support This book describes current assessment methods including interviewing rating scales self report measures social cognition tests and behavioral observations It also provides guidance regarding cultural considerations common mistakes and how to communicate with and support clients through the diagnostic process This very practical clinical guide provides a clear and neurodiversity affirmative approach to autism assessment particularly for autistic individuals who have previously been missed It is relevant to all healthcare professionals who want to learn how to identify autism in their clients

Reaching and Teaching Students with Special Needs Through Art Beverly Levett Gerber, Doris M. Guay, Jane Burnette, 2024-09-30 This second edition of *Reaching and Teaching Students with Special Needs Through Art* is written for art educators special educators and those who value the arts for students with special needs It builds on teachers positive responses to the first edition and now combines over 700 years of the educational experience of arts and special educators who share their art lessons behavior management strategies and classroom stories The revised second edition provides updated chapters addressing students with emotional behavioral disabilities learning disabilities intellectual disabilities physical disabilities and visual and hearing impairments The newly revised second edition includes chapters on students with autism spectrum disorder preschool students and students experiencing trauma All chapters have been updated to include current definitions and language recommended teaching strategies art lesson adaptations behavior management strategies and references to related chapters Follow up activities are provided for further insights into each group of students A new summary chapter connects how the authors collaborations resulted in changes to two professional organizations Since the first edition many of the featured authors established the new Division of Visual and Performing Arts Education DARTS at the Council for Exceptional Children CEC and earlier formed a new National Art Education Association NAEA Interest group Special Needs in Art Education SNAE now

Arts in Special Education ASE This edition is ideal for preservice arts methods courses and education courses on accessibility and inclusion at the undergraduate and graduate levels It continues to offer current yet proven best practices for reaching and teaching this ever important population of students through the arts **Helping Students on the Autism Spectrum**

Get the Best Out of College Kate Ripley, Rebecca Murphy, 2020-03-19 This is the companion guide for further education staff working with students on the autism spectrum who are using Getting the Best Out of College for Students on the Autism Spectrum A Workbook for Entering Further Education The workbook takes a holistic approach and focusses on the practicalities of college life for autistic students transitioning to further education as well as those already there It covers everything needed to support autistic students including getting to college how to handle new sensory issues peer relationships where to go for help time management and exam anxiety This guide follows the structure of the workbook Getting the Best Out of College for Students on the Autism Spectrum For each chapter there is a parallel chapter in the student guide that directly addresses the students needs This guide includes case studies contextual information and frameworks to help adults work through the exercises and interactive elements with the student Discrimination and

Privacy in the Information Society Bart Custers, Toon Calders, Bart Schermer, Tal Zarsky, 2012-08-11 Vast amounts of data are nowadays collected stored and processed in an effort to assist in making a variety of administrative and governmental decisions These innovative steps considerably improve the speed effectiveness and quality of decisions Analyses are increasingly performed by data mining and profiling technologies that statistically and automatically determine patterns and trends However when such practices lead to unwanted or unjustified selections they may result in unacceptable forms of discrimination Processing vast amounts of data may lead to situations in which data controllers know many of the characteristics behaviors and whereabouts of people In some cases analysts might know more about individuals than these individuals know about themselves Judging people by their digital identities sheds a different light on our views of privacy and data protection This book discusses discrimination and privacy issues related to data mining and profiling practices It provides technological and regulatory solutions to problems which arise in these innovative contexts The book explains that common measures for mitigating privacy and discrimination such as access controls and anonymity fail to properly resolve privacy and discrimination concerns Therefore new solutions focusing on technology design transparency and accountability are called for and set forth
