Reviews Have your kids expressed interest in computers Most children have and will continue to do so because we are in a technological world There aren't many programming courses on the market today that cater to teaching children about computer programming Fortunately BibleByte Books Computer Science For Kids offer two different parent friendly middle school and high school computer programming curriculums for Microsoft Small Basic Visual Basic Express Visual C Express and Oracle Sun Java With no previous programming experience I found that their Computer Programming Tutorials made computer programming both fun and easy to learn Their customer service was also very eager to answer any questions that I might have This combination of curriculum and customer service makes their tutorials attractive to both the Homeschool parent and their beginning student programmer Homeschool.com 2011 Seal of Approval Product Review

Third Day Games would be thrilled if every child who played our video games would learn how to develop Bible based Christian video games themselves BibleByte Books produces a wonderful Computer Science For Kids Curriculum that we believe will help train up the next generation of Christian game developers The games industry desperately needs talented game developers who are also Christians to help build the next generation of Bible based Christian video games Learning a computer programming language early in life will give your child a great head start in the wonderful field of computer programming and give them the opportunity to use their skills to further the Kingdom Bobby Wells CEO Third Day Games

Agency Through Teacher Education Ryan Flessner, 2012-12-27

Agency through Teacher Education Reflection Community and Learning addresses the ways that agency functions for those involved in twenty first century teacher education This book commissioned by the Association of Teacher Educators relies on the voices of teacher education candidates in service teachers school leaders and university based

educators to illustrate what agency looks like sounds like and feels like for people trying to act as agents of change These examples take the form of narratives theoretical explorations formal research studies and reflective essays Agency through Teacher Education does not seek to establish one definition for agency but rather to conceptualize it from three perspectives reflective practice community engagement activism and organizational learning The book seeks to explore ways stakeholders in and outside the classroom become agents of change as well as the traditional and non traditional roles played out in teacher education programs across the United States

Garrett's Soldiers Dr. Yolande Maria Minor, EdD,2010-03-03 Garrett Soldiers describes the birth of a behavioral intervention program at Garrett Middle School in Cobb County Georgia to increase the success of at risk male students Also the book embodies the dissertational study The Effectiveness of the WhyTry Program with Conduct Disordered Students by Dr Yolande Minor The study showed that the more positive perception and the increased amount of time commitment by facilitators of the WhyTry program contributed to the decreasing number of males and females being expelled from school Also the independent variables were close to being significant in the decrease number of students involved in the juvenile court system Furthermore there was a reduction in the amount of students involved with aggression and the destruction of property Congressional Record United States. Congress,2010 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873

Cross-Curricular Teaching and Learning in the Secondary School... The Arts Martin Fautley,Jonathan Savage,2010-12-02 The school curriculum is a contested arena There are competing pressures from those who advocate that it should be constructed on a subject specific basis whereas at the other end of the continuum is the stance taken by this book that learning and especially learning in the arts can transcend artificial boundaries between subjects This book sets out a case for cross curricular learning involving the arts in secondary schools Cross Curricular Teaching and Learning in the Secondary School The Arts argues for the development of a new skilful pedagogy which embeds an authentic cross curricular approach to teaching and learning in the work of the individual teacher Teachers are empowered to think about creative pedagogies and pupils are able to engage in deep learning as a result Key features of the text include theoretical examination of key issues curriculum planning materials and resources a wide range of case studies drawn from innovative practise frameworks for assessment and evaluation Part of the Cross Curricular Teaching and Learning in the Secondary School series this textbook breaks the boundaries between curriculum subjects and the arts It is timely reading for all students on Initial Teacher Training courses as well as practising teachers looking to introduce cross curricular themes in their own subjects
