Teachers and Service Providers explores the most prevalent behavioral disorders encountered by school professionals as they work with today's students. These high incidence behavioral disorders are addressed by type and each includes a discussion of the relevant characteristics, causes, prevalence, and treatment strategies. Features that are unique to this book include its acknowledgement of the need for a collaborative approach to these problems by all school professionals as well as the coordination of services provided by the classroom teacher and other service providers working with these students. To date, few books, if any, have provided this holistic perspective. This book is designed to help K-12 teachers and related service providers, i.e., school psychologists, school social workers, speech language pathologists, guidance counselors, and occupational therapists, work successfully with children who exhibit emotional and behavioral disorders by affording them a repertoire of valuable evidence-based treatment strategies.

Writing a Behavioral Intervention Plan Based on a Functional Behavior Assessment Laura A. Riffel, Ph.D., 2016-09-13 This book is designed to take an educator through ten days of real student data and help them learn how to interpret the data for the gold that is hidden within. This is an easy-to-use format and participants rave about being able to comprehend the data and make a data-based quality plan after taking this course. Many university courses use this as part of their text for students just learning about behavior analysis. This book is for the one-day course from Behavior Doctor Seminars. Dr. Riffel has a two-day course that teaches learners how to enter this data into a free FBA data tool available on www.behaviordoc.org. There is also a six-month course book for those who want to build behavioral expertise in their school.
