Summa Theologiae, Prima Pars: Volume 3, Human Beings and God's Governance of Creation, QQ 75-119 Thomas Aquinas, Thomas de Vio Cajetan, 2023-06-23 This book is an introduction to three questions on love according to St Thomas Aquinas Summa Theologiae I II qq 26 28 These three questions reflect on the nature of love q 26 the causes of love q 27 and the effects of love q 28 It is thus an introduction to the entire phenomenon of love both as a bodily passion and an act of the will The purpose is to present the Thomistic and broadly scholastic account of human and divine love from a philosophical and theological perspective It aims to be a theological and philosophical study of the topic useful both for a graduate professional audience as part of an undergraduate or graduate course and perhaps for the educated reader The thesis of the book is that contrary to contemporary conceptions not all loves are created equal Some loves perfect us and some loves corrupt us The worth of a love depends on its object and end St Thomas thus presents an objective and teleological account of human and divine love that is of philosophical and theological interest The method is broadly exegetical presenting a careful reading of the text and supplying the philosophical and theological background which the text of Aquinas assumes The scope of the work is limited to three questions ST I II qq 26 28 References to interpretative disputes of Aquinas and references to further resources in the secondary literature will be mostly limited to the footnotes making the body of the text accessible to more readers

The Physics of the Paranormal Kenneth W. Behrendt, 2003-01-24 The Physics of the Paranormal is one of the few books in existence that actually explores in depth the physical mechanisms that may be in operation when various paranormal events occur In order to provide these revolutionary insights the author applied several concepts derived from his lifelong research into UFO propulsion and secondary effects The application of these new physical principles to the paranormal reveals a fascinating unity in the mechanism in operation behind such apparently diverse phenomena as mental photography psychokinesis the Geller effects bodily transfigurations and miracle cures Based on some of the authors own experiences with telepathy the book also explores this phenomenon as well as its role in the process of reincarnation This book is not a compendium of case histories It focuses on selected cases and seeks to provide the serious student of the subject with a conceptual framework that will guide future paranormal research well into the twenty first century
