Body And Language Intercultural Learning Through Drama:

Body and Language Gerd Bräuer, 2002-07-30 Highlights the bridging character of drama based foreign and second language teaching for intercultural learning Drama here is not limited to theater related work but means the interplay between body and language in general to include for example sports dancing singing and storytelling The major techniques and curricular structures of educational drama and its application in the foreign and second language classroom are introduced What are the techniques methods strategies and curricular structures that engage language learners in continuing dialogue between one's own culture and the one yet to be discovered What comprises the language we speak in order to understand and be understood Which body is it we communicate through and to This volume answers these and other questions of the pedagogy of drama based teaching across the foreign second language curriculum and on all levels of the educational pyramid There are two major issues currently discussed in drama based foreign and second language methodology The first is goal oriented asking whether the acquisition of accuracy or fluency is more important and whether a controlled learning through imitation or an open through improvisation learning environment is more efficient The second issue concerns using drama in language teaching either its use is process oriented where drama becomes an immediate medium for language learning or product oriented where it becomes primarily the reason for language learning The book outlines the theoretical frameworks of both issues and introduces personal narrative comparative observation and analytical reflection illuminating opportunities for learning at both ends of the seemingly contradictory poles of both issues Body and Language Gerd Bräuer, **Second Language Learning through Drama** Joe Winston, 2013-06-17 Drama is increasingly being recognised as a valuable pedagogy for language learning as it can harness children's imaginations and stimulate their desire to communicate Second Learning Language through Drama draws on current theories of additional and foreign language learning and illustrates through practical case studies how drama can be used to support the four key skills of listening speaking reading and writing Drawing on the work of an international group of practitioners who are all highly experienced in using drama for the purpose of second language learning the book clearly explains key drama conventions and strategies and outlines the innovative ways they have been used to create enjoyable and stimulating classroom activities that allow for multiple ways of learning Throughout the book the emphasis is on making language learning accessible and relevant to children and young people through creative physically active and playful approaches The strategies described are all highly flexible and readily adaptable to different teaching contexts Specific themes include Using stories and drama to motivate learners at all levels Drama language learning and identity Assessment opportunities through process drama Issues of language learning and cultural empowerment Digital storytelling Film drama aesthetics Second Language Learning through Drama will be of great interest to those studying on undergraduate and postgraduate courses and will serve as a highly valuable text to practitioners looking to incorporate the approaches described into their lessons

and classroom activities **Set the Stage!** Nicoletta Marini-Maio, Colleen Ryan-Scheutz, 2008-12-16 Set the Stage is a collection of essays on teaching Italian language literature and culture through theater From theoretical background to course models this book provides all the resources that teachers and students need to incorporate the rich and abundant Italian theater tradition into the curriculum Features of the book include the Director's Handbook a comprehensive guide with detailed instructions for every step of the process from choosing a text to the final performance an exclusive interview with Nobel laureate Dario Fo a foreword by prize winning author Dacia Maraini **Going Performative in Intercultural Education** John Crutchfield, Manfred Schewe, 2017-08-24 Over the last two decades drama pedagogy has helped to lay the foundations for a new teaching and learning culture one that accentuates physicality and centres on performative experience Signs of this performative turn in education are especially strong in the field of foreign second language teaching This volume introduces scholars language teachers student teachers and drama practitioners to the concept of a performative foreign language didactics Approaching the subject from a wide variety of contexts the contributors explore the extent to which performative approaches emphasising the role of the body as a learning medium can achieve deep intercultural learning Drama activities such as improvisation hot seating and tableaux are shown to create rich opportunities for intercultural encounters that transport students beyond the parameters of conventional language literature and culture education *Drama Education and Second Language Learning* Joe Winston, Madonna Stinson, 2016-04-08 In recent years the contribution of drama to second language learning has grown internationally as a field of interest to both teachers and researchers The potential for drama to provide strong social contexts for learning to provide opportunities for the learner to embody the target language and to motivate students desire to communicate have been increasingly recognized as fruitful areas of inquiry This book provides a brief historical perspective on the development of this interest before presenting a range of examples drawn from recent research projects led by those who are themselves experienced as drama and second language teachers Drawing on a variety of theoretical perspectives and deploying a range of methodological processes the chapters present evidence as to how and why drama can impact on student learning in a range of classrooms from the primary school through to undergraduate level Focusing on issues such as questioning in role the professional development of second language teachers interested in using drama and the role of artistry when applying drama as pedagogy for second language learning they provide an up to date picture of contemporary practices and an acute analysis of both the possibilities and the challenges facing researchers in the field This book was originally published as a special issue of Research in Drama Education The Journal of Applied Theatre and Performance **Re/humanizing Education** , 2022-05-16 Teaching and learning are profoundly personal experiences yet systems of education often prioritize agendas that alienate people rather than engage them Reconceptualizing teaching and learning as a co constructed praxis places individuals at the heart of education and in so doing regards knowledge acquisition as a process of understanding that is dynamically and personally

negotiated at the intersection of self subject and relationality This approach at once pedagogical and practical has the capacity to transform the classroom from a place of containment to one of expansiveness Through critical qualitative creative and arts integrated approaches this collection aims to explore the co curricular capacity of lived experience to re humanize education This is a timely project given the multiple race health environmental and socio political crises playing out on the world stage Contributions include works by authors who explore co curricular inclusion of lived experience for its potential to create more equitable and representative curricula co curricular capacity of lived experience to advance relationality both human and more than human and co curricular potential of lived experience to un privilege the current prioritization of the quantifiable in favour of more inclusive and holistic epistemologies

Drama-based foreign language learning Helga Tschurtschenthaler, 2013 What does another language do to the individual who learns and uses it How is the individual's idea of self affected by the other language This case study deals with these two overarching questions within the context of learning English as a foreign language through drama at a German upper secondary school in South Tyrol It investigates how the students see themselves in their roles how they perceive themselves as users of the foreign language and how they experience themselves in role in another language The results show how powerful drama based activities can be and what educational impact they have

Dramatic Interactions Nicoletta Marini-Maio, Colleen Ryan-Scheutz, 2011-01-18 Dramatic Interactions is a collection of essays on the flourishing and interdisciplinary subject of teaching foreign languages literatures and cultures through theater With rich examples from a variety of commonly and less commonly taught languages this book affirms both the relevance and effectiveness of using theater for foreign language learning in the most comprehensive sense of the term It includes innovative approaches to specific theatrical texts and addresses numerous aspects of foreign language learning such as oral proficiency and communication intercultural competence the role of affect and motivation in foreign language study multiple literacies regional variations and dialect literary analysis and adaptation and the overall liberating effects of verbal and non verbal self expression in the foreign language Dramatic Interactions renders accessible efficacious and enjoyable the study of languages literatures and cultures through theater with the hope of inspiring and facilitating the greater incorporation of theatrical texts and techniques in foreign language courses at every level

Language Learning in New English Contexts Rita Elaine Silver, Lubna Alsagoff, Christine C M Goh, 2011-10-27 This edited volume is dedicated to the exploration of English language acquisition and development outside of the largely monolingual environments of North America the United Kingdom and Australia Specifically the studies investigate different facets of English language learning in Singapore and uses this experience to forge connections with other New English contexts Using empirical data drawn from a range of language classrooms the contributors emphasise the place of education within a global framework of English language learning In so doing they examine economic social and political factors influencing language education and present a refreshingly global perspective on English language acquisition This comprehensive examination of language learning in

New English contexts will be of interest to researchers in applied linguistics and world Englishes
